Bridey Heing Today, it may seem like the college admissions process has become more inflated and difficult to navigate than ever before. Many parents have become vocal about the standardized testing and college preparation that begins as early as elementary school. In fact, some families hire advisors to help their children chart a path to the most prestigious schools when they are barely teenagers. This text examines the historical college admissions process and where we are today through the thoughtful analysis of researchers, politicians, officials, and ordinary people in order to show students all sides of this often high-stress topic.

I found just the right samples in this book to make my life easy so that I could produce the multiple letters yearly that are requested of me." Sonya S. "I am not a professional writer, but I feel that this book took my mediocre skills and helped them blossom by showing me samples of effective letters. I especially liked the letters protesting charges, and I created effective letters protesting medical charges. People assume you are more serious when you write a letter instead of trying to handle problems verbally. This book helped me leave a 'paper trail' and get taken seriously so that I could resolve some chronic financial problems." Julio G. "When I wanted to get reinstated to my academic program, I didn't give myself much of a chance, but I took my best shot by following samples in this book. I will be graduating soon, and I got a second chance at academic eligibility because of this book." Fritz H. "It blew me away when I found samples of business marketing letters I could use to find potential new customers. I have discovered that everyone likes reading letters, and the business marketing letters I now use-thanks to the samples in this book-have dramatically boosted my sales." Nadal S.
