2020-06 Jean Webster The first Wednesday in every month was a Perfectly Awful Day-a day to be awaited with dread, endured with courage and forgotten with haste. Every floor must be spotless, every chair dustless, and every bed without a wrinkle. Ninety-seven squirming little orphans must be scrubbed and combed and buttoned into freshly starched gingham; and all ninety-seven reminded of their manners, and told to say, "Yes, sir," "No, sir," whenever a Trustee spoke. It was a distressing time; and poor Jerusha Abbott, being the oldest orphan, had to bear the brunt of it. But this particular first Wednesday, like its predecessors, finally dragged itself to a close. Jerusha escaped from the pantry where she had been making sandwiches for the asylum's guests, and turned upstairs to accomplish her regular work. Her special care was room F, where eleven little tots, from four to seven, occupied eleven little cots set in a row. Jerusha assembled her charges, straightened their rumpled frocks, wiped their noses, and started them in an orderly and willing line toward the dining-room to engage themselves for a blessed half hour with bread and milk and prune pudding.

1998 Greta Claire Gaard Ecofeminist Literary Criticism is the first collection of its kind: a diverse anthology that explores both how ecofeminism can enrich literary criticism and how literary criticism can contribute to ecofeminist theory and activism. Ecofeminism is a practical movement for social change that discerns interconnections among all forms of oppression: the exploitation of nature, the oppression of women, class exploitation, racism, colonialism. Against binary divisions such as self/other, culture/nature, man/woman, humans/animals, and white/non-white, ecofeminist theory asserts that human identity is shaped by more fluid relationships and by an acknowledgment of both connection and difference. Once considered the province of philosophy and women's studies, ecofeminism in recent years has been incorporated into a broader spectrum of academic discourse. Ecofeminist Literary Criticism assembles some of the most insightful advocates of this perspective to illuminate ecofeminism as a valuable component of literary criticism.

2010-11-24 Anthony Grafton The Transmission of Culture in Early Modern Europe focuses on the ways in which culture is moved from one generation or group to another, not by exact replication but by accretion or revision. The contributors to the volume each consider how the passing of historical information is an organic process that allows for the transformation of previously accepted truth. The volume covers a broad and fascinating scope of subjects presented by leading scholars. Anthony Grafton's contribution on the fifteenth-century forger Annio da Viterbo emphasizes the role of imagination in the classical revival; Lisa Jardine demonstrates the way in which Erasmus helped turn a technical and rebarbative book by Rudolph Agricola into a sixteenth-century success story; Alan Charles Kors finds the roots of Enlightenment atheism in the works of French Catholic theologians; Donald R. Kelley follows the legal idea of "custom" from its formulation by the ancients to its assimilation into the modern social sciences; and Lawrence Stone shows how changes in legal action against female adultery between 1670 and 1857 reflect basic shifts in English moral values.

2009 Robert E. Lerner The Powers of Prophecy is an original attempt to investigate the subject of medieval eschatological prophecies: how and in what circumstances they were written; how they circulated; what they told people about the future; and how they were received. Although scholars have studied the ideas of a few outstanding medieval prophetic thinkers or the role of prophecies in heretical movements and popular insurrections, up to now there has been no attempt to study the most commonplace medieval

prophetic ideas as they were communicated in the most frequently copied and widely read anonymous prophetic texts. Dedicated to pursuing the typical, Lerner's book traces the fortunes of an eschatological prophecy that was first written around 1240 and thereafter circulated throughout Western Europe for more than four centuries. Originally composed as a response to the Mongol onslaught, the prophecy was resurrected and reconceived to apply to other crises such as the fall of the Holy Land, the Black Death, and the Protestant Reformation. Although it was supposed to have descended from on high, allegedly being a message written by a disembodied moving hand over an altar during mass, countless scribes felt no qualms about recirculating the text with substantial changes. Among the many who took note of the prophecy in one or another of its numerous guises were the scholastic theological John of Paris; the Infante Peter, a prince of the house of Aragon; John Clyn, an Irish monk who entered it into his chronicle shortly before dying of the bubonic plague; and Martin Luther.

2013-03-27 The present volume collects seventeen case studies that characterize the various kinds of translations of the European culture of the last two and a half millennia from ancient Greece to Rome, from the Medieval world to the Renaissance up to the Modernity.

Simon Scarrow will do for boy gladiators what J. K. Rowling did for boy wizards - Waterstones.com The perfect introduction to Roman history and gladiators for young readers - great for fans of Rick Riordan's Percy Jackson and J. K. 1991 Bertolt Brecht Book jacket: Known primarily as a dramatist, Bertolt Brecht was also a gifted poet. These fifty poems--among them many ballads that later became part of The Threepenny Opera, Mahagonny, and Baal--reveal the tremendous range and versatility of Brecht's expression. His first and best book of poetry, Manual of Piety uses the traditional form of devotional literature to provide both an irreverent spoof and a serious critique of the post-World War I European (and more specifically, German) culture that gave rise to fascism. His characteristically sly wit combines with mordant social commentary to make Manual of Piety Brecht at his most hilarious--and also his most brutally incisive.

2021-03-15 Sam J Tangredi Artificial intelligence (AI) may be the most beneficial technological development of the twenty-first century. Media hype and raised expectations for results, however, have clouded understanding of the true nature of AI—including its limitations and potential. AI at War provides a balanced and practical understanding of applying AI to national security and warfighting professionals as well as a wide array of other readers. Although the themes and findings of the chapters are relevant across the U.S. Department of Defense, to include all Services, the Joint Staff and defense agencies as well as allied and partner ministries of defense, this book is a case study of warfighting functions in the Naval Services—the U.S. Navy and U.S. Marine Corps. Sam J. Tangredi and George Galdorisi bring together over thirty experts, ranging from former DOD officials and retired flag officers to scientists and active duty junior officers. These contributors present views on a vast spectrum of subjects pertaining to the implementation of AI in modern warfare, including strategy, policy, doctrine, weapons, and ethical concerns.

1995 Philip Sherrard The division of Christendom into the Greek East and the Latin West has its origins far back in history but its consequences still affect Europe, and thus Western Civilization. Sherrard's study seeks to indicate both the fundamental character and some of the consequences of this division. He points especially to the underlying metaphysical bases of Greek Christian thought, and contrasts them with those of the Latin West.
