2008-10-17 William W. Ward Hey, Doc! Does Spelling Count? is a humorous satire about the many failings of state universities in America. This book is for people who, like Professor Ward, enjoy laughing-those willing to poke fun at human behavior and traditional institutions. In particular, it is for those whose lives intersect American education. They wonder what's going on and why. "Hey, Doc!---" is for teachers, professors, education administrators, college graduates, business leaders, legislators, working professionals, serious college students, and self-sacrificing parents, whose monthly checks wind up paying for three-day weekend college football bashes. And, it is for Professor Ward's barber who wonders why his college-educated patrons have nothing more important on their minds than last weekend's football scores. As a university professor of thirty-one years, Dr. Ward has observed just about everything happening on campus-some of it is truly shocking. An idealistic reformer, he wanted to write a factual expose about university mismanagement. But, fearing massive retaliation "tell-all" authors attract, he shied away. Instead, he resorted to crafting his 5000 protest letters about university mismanagement with humor, satire, irony, and sarcasm. These letters became the genesis of this book. "Hey, Doc!---" provides a fresh look at the college scene, ridiculing students, professors, administrators, and union leaders, while lampooning much of what happens on the "State U." campus. When you are not laughing out loud with Professor Ward's special brand of humor, you will be shocked and dismayed to read his revelations of widespread university mismanagement. About the Author: A world expert in the biochemistry of GREEN FLUORESCENT PROTEIN, Dr. Ward has 120 professional publications to his credit and has taught hundreds of sections of college courses, freshman level to graduate level. His continuing professional education courses in biotechnology have attracted more than 1200 industrial scientists from all around the world. He has presented 50 platform talks at national and international meetings, addressing up to 500 attendees and he has run three international symposia on GFP. Dr. Ward has given keynote addresses to audiences in Cambridge, England, Pembroke, Wales, Asilomar, CA, Blacksburg, VA, and Greensboro NC. He has been filmed by ABC for a NYC news broadcast and has been interviewed on radio. Over the past 20 years, Dr. Ward has appeared as a tenor in a dozen community theater productions including four Gilbert and Sullivan operettas. Partnering with his multi-talented illustrator, Lori Baratta, he is working on four other satires, "Turn Right To Go Left," about New Jersey driving, "Snake Oil, Revisited," exposing over-the-counter quackery, "Why Do They Jog When They've Nothing That Jiggles," about the silly things people do, and "GW Bush, America's 44th Best President," a scathing expose of #43.

2015-09-01 Tonya Craft This is the true story of a woman who prevailed against the most heinous accusations imaginable. Tonya Craft, a Georgia kindergarten teacher and loving mother of two, never expected a knock on her door to change her life forever. But in May 2008, false accusations of child

molestation turned her world upside down. The trial that followed dragged her reputation through the mud and lent nationwide notoriety to her name. Tonya's life spiraled into a witch-trial nightmare in which she was deemed guilty before her innocence could be determined by a jury. Her children were taken away without even a goodbye, and her own daughter was forced to take the stand against her in a courtroom. The situation seemed hopeless, and Tonya was shell-shocked and heartbroken. But that didn't keep her from finding the strength to fight. Over the course of two terrifying years, Tonya rallied to take charge of her own defense, flying across the country and knocking on doors on a desperate quest for answers, and defying her own lawyers on more than one occasion. Tonya's goal was not only to avoid conviction; it was to clear her name, and, most of all, regain custody of her children. Accused is about more than Tonya's shocking trial and fight for justice. It is the story of a mother's extraordinary love, the faith that sees her through it all, and the forgiveness that sets her free.

2007-12-12 Dan Starrett Daniel and the Lions Den, the true story of an eight hour inmate is a compelling no holds barred story of humorous and disgusting anecdotes written by the author of The Father The Son and The Railroad Ghost and The Straw Servant. Dan Starrett spent twenty-five years in law enforcement and knows first hand what it is like to be in The Lions Den. One of the best ways to face the strain and stress of prison life is to have a cynical sense of humor and a desire to come out of The Lions Den Alive when the long shift is done. I worked closely with Dan and he has made my day go by faster with his wit and humor . I can attest to the contents of this story because I am retired from the DOC. This is life behind bars at its best and worst and can only be described by this man who has been there , done that. Prison violence goes from mild to unbelievable. The correctional officer does not have the best job in the world and is sometimes caught in the middle of the administration, the inmates and a speculating misinformed public that would keep him/her from doing their job. This story lends credence to Doing your eight and hittin the gate. If graphic sex and violence offends you, please do not read this story. This is reality. Ray McGuire, Yanceyville N.C. N.C. Leadership coach and former principal Simon Rodberg pulls together true stories from his own experience, examples of a range of school issues, and the latest research in cognitive science into a five-question framework for school leaders to ask themselves when facing a decision: - What am I missing? - What's one small step? - Where's the trade-off? - Does it have to be this way? - What if I'm wrong? By prompting you to reflect on your own thought processes and cognitive blind spots, Rodberg's approach helps you build good habits of strategic decision making.
