2009-06-23 John Brandon “A tale of three young men who’ve taken one look at straight life and drop-kicked it . . . Picaresque, sly, bitterly funny, the novel hooks us at once.” —San Francisco Chronicle Met with wide acclaim, Arkansas is a darkly comic debut novel written by John Brandon about a pair of drug runners, Kyle and Swin, set in the rural southeast. Drawing comparisons to a striking range of storytellers, from Quentin Tarantino and Mark Twain to Flannery O’Connor and Cormac McCarthy, John Brandon—an MFA graduate of Washington University who worked an array of odd jobs while writing the novel, including at a rubber factory and a windshield warehouse—delivers a tightly written, bitterly funny story that chronicles the monochromatic landscape of the American southeast and gives a glimpse into the mindset of his wildly troubled yet seemingly real characters. “Brandon’s premier novel is a must for those who love the criminal and the stern, yet dark optimism of the existential. His vision of Arkansas is unique, his wit is sharp, and the sympathy he has for his characters is genuine.

For all the dark alleys Brandon explores, both physically and psychologically, Arkansas’s power rests in its redefining and restructuring of the criminal’s only hope: family.”

'With just some paper and mundane tools, Jennifer is able to create intensely beautiful works of art.' Richard Aloisio, Art Director, The New York Times 2019-07-09 Summer Rayne Oakes Summer Rayne Oakes, an urban houseplant expert and environmental scientist, is the icon of wellness-minded millennials who want to bring nature indoors, according to a New York Times profile. Summer has managed to grow 1,000 houseplants in her Brooklyn apartment (and they're thriving!) Her secret? She approaches her relationships with plants as intentionally as if they were people. Everyone deserves to feel the inner peace that comes from taking care of greenery. Beyond the obvious benefits--beauty and cleaner air--there's a strong psychological benefit to nurturing plants as a path to mindfulness. They can reduce our stress level, lower our blood pressure, and improve our overall outlook. And they offer a rare opportunity to find joy by caring for another living being. When Summer Rayne Oakes moved to Brooklyn from the Pennsylvania countryside, she knew that bringing nature indoors was her only chance to stay sane. She found them by the side of the road, in long-forgotten window boxes, at farmers' markets,

and in local garden shops. She found ways to shelve, hang, tuck, anchor, secure, and suspend them. She even installed a 150-foot expandable hose that connects to pipes under her kitchen sink, so she only has to spend about a half-hour a day tending to her plants--an activity that she describes as a "moving meditation." This is Summer's guidebook for cultivating an entirely new relationship with your plant children. Inside, you'll learn to: Pause for the flowers and greenery all around you, even the ones sprouting bravely between cracked pavement Trust that your apartment jungle offers you far more than pretty décor See the world from a plant's perspective, trading modern consumerism for sustainability Serve your chlorophyllic friends by learning to identify the right species for your home and to recreate their natural habitat (Bonus: your indoor garden won't die!) When we become plant parents, we also become better caretakers of ourselves, the people around us, and our planet. So, let's step inside the world of plants and discover how we can begin cultivating our own personal green space--in our homes, in our minds, and in our hearts. 2017-01-26 Robert Pavlis Garden Myths examines over 120 horticultural urban legends.
