2007 Richard Warner During the 1830s, a path appeared where Indian Creek flowed out of the loess hills at Caldwell's Potawatomi village and

led west across the Eight-Mile Prairie. A decade later, that path became Broadway through Mormon Kaneshville where California-bound 49ers found anything for sale. Kaneshville became Council Bluffs after 1852 as Broadway spread from Mud Hollow and Old Town past the Fourth Street Angle across a "sea of prairie grass and sun-flowers" to the ferries on the Big Muddy, the Missouri River. More changes came with the Northwestern, Union Pacific, and Illinois Central Railroads as Broadway evolved into the route of four U.S. highways. People went to work at World Radio, Woodward's, and Omaha Standard, and notorious mobster Meyer

Lansky ran greyhounds where stock cars later raced at Playland Park while teenagers cruised for hamburgers and entertainment.

2015 W. M. Elofson There are many points on which the western Canadian and northern Australian cattle frontiers evoke comparisons. This book provides a comparative study of frontier cattle ranching in two societies on opposite ends of the globe. It is also an environmental history that at the same time centres on both the natural and frontier environments.

2004 Carol Peterson I have felt for many years that there have perhaps never been a 75 to 100 years that have seen so much progress and change, both for good and bad. Life has always been mixed with both good times and bad

times, and so it will until the Lord returns. But this type of good and bad is not what I am writing about. In the horse and buggy era and early years of the car, there were a lot of hard times: poverty, sickness, and epidemics, but by and large, the moral fiber of most people was much better than now. There are many things to blame, but the sad part of this is that I believe the Christians are the most to blame for not getting involved. The scapegoat idea: it's all in the Lord's hands, we don't have to worry or do anything. In the meantime, much has happened because of the ACLU, our court system, the pressure of the entertainment world and the Democratic party, and too many Republicans voting wrong. It is already illegal for the kids to pray in school or even take their Bible to school. They are trying to get "In God We Trust" off our money and take for God and Country out of the Pledge of Allegiance. However, I feel there is a trend now of thinking seriously about God and morals and hard work, and there will have to be if this world is going to last. So I am dedicating this to my nine children, grandchildren and great grandchildren and anyone who reads it that it will help them see what a change has taken place in the 1900's and that it might help them on the road of life, plus hopefully bring some enjoyment.

2015-06-08 Buck Rainey While many fans remember The Lone Ranger, Ace Drummond and others, fewer focus on the facts that serials had their roots in silent film and that many foreign studios also produced serials, though few made it to the United States. The 471 serials and 100 series (continuing productions without the cliffhanger endings) from the United States and 136 serials and 37 series from other countries are included in this comprehensive reference work. Each entry includes title, country of origin, year, studio, number of episodes, running time or number of reels, episode titles, cast, production credits, and a plot synopsis.
