Library and Information Science Trends and Research 2012-01-16 Amanda Spink This book draws out and examines the trends in education and research in the field of library and information science (LIS) in the vast Asia-Oceania region. Information is an important part of the human condition and critical to the development of the Asia-Oceania region. The book is timely, therefore, as the region continues to grow and develop.

Literacy Skill Development for Library Science Professionals 2018-08-24 Thanuskodi, S. With the increasing use of information communication technology in education, new skills and competencies among library science professionals are required for them to effectively disseminate necessary information to users. It is essential to equip educators and students with the requisite digital and information literacy competencies. Literacy Skill Development for Library Science Professionals provides emerging research exploring the roles and applications of information literacy and technology within library science and education. Featuring coverage on a broad range of topics such as electronic resources, mobile learning, and social media, this book is ideally designed for librarians, information and communication technology researchers, academicians, and graduate-level students seeking current research on the ability to find, evaluate, use, and share information in library science.

Global Library and Information Science 2009-05-05 Ismail Abdullahi This book presents international librarianship and library science through insightful and well written chapters contributed by experts and scholars from six regions of the world. The role of public, academic, special, school libraries, as well as library and information science education are presented from the early development to the present time. Its lively, readable approach will help the reader to understand librarianship in Africa, Asia, Australia and New Zealand, Europe, Latin America and the Caribbean, the Middle East, and North America. Edited by Ismail Abdullahi, Professor of Global Library and Information Science, this book is a must-read by library science students and teachers, librarians, and anyone interested in Global Librarianship.

Libraries 1998 Kathleen de la Peña McCook Read this unique title and learn about the global reach -- how

today's libraries, through the Internet, can reach into other communities and connect almost instantaneously to information resources around the world. Read about the local touch -- the human touch in the form of library professionals who are experts at locating, organizing, and evaluating information.

Global Library and Information Science 2017-11-07 Ismail Abdullahi This 2nd edition of the highly successful Global Library and Information Science presents an up-to-date review of international librarianship and library science through insightful and well written chapters contributed by experts and scholars from all regions of the world. The role of public, academic, special, school libraries, as well as library and information science education are presented from the early development to the present time. Its lively, readable approach will help the reader to understand librarianship in Africa, Asia, Australia and New Zealand, Europe, Latin America and the Caribbean, and North America. Edited by Ismail Abdullahi, Professor of Global Library and Information Science, this book is a must-read by library science students and teachers, librarians, and anyone interested in Global Librarianship.

IFLA Public Library Service Guidelines 2010-07-30 Christie Koontz The public library is the prime community access point designed to respond to a multitude of ever-changing information needs. These guidelines are framed to provide assistance to library and information professionals in most situations. They assist to better develop effective services, relevant collections, and accessible formats within the context and requirements of the local community. In this exciting and complex information world it is important for professionals in search of knowledge, information and creative experience to succeed. This is the 2nd edition of The Public Library Service IFLA/UNESCO Guidelines for Development.
