2023-09-05 Allen N. Berger The Economic and Financial Impacts of the COVID-19 Crisis Around the World: Expect the Unexpected provides an informed, research-based in-depth understanding of the COVID-19 crisis, its impacts on households, nonfinancial firms, banks, and financial market participants, and the effectiveness of the reactions of governments and policymakers in the United States and around the world. It provides reflections and perspectives on the social costs and benefits of various policies undertaken and a toolkit of preventive measures to deal with crises beyond the COVID-19 crisis. Authors Allen N. Berger, Mustafa U. Karakaplan, and Raluca A. Roman apply their expertise to the research and data on the COVID-19 economic crisis as well as draw on their own rich research experience. They take a holistic approach that compares and

contrasts this crisis with other economic and financial crises and assesses economic and financial behavior and government policies in the booms before crises and the aftermaths following them, as well as the crises themselves. They do all this with a keen eye on "Expecting the Unexpected future crises, and policies that might anticipate them and provide better outcomes for society. Serves as a compendium of available research and data on COVID-19, policies in response to the pandemic, and its effects on the real economy, banking sector, and financial markets Contextualizes the COVID-19 economic crisis by comparing it to two other global crises from the past: the Crash of 1929 and the Global Financial Crisis of 2007-2009 Helps illustrate how crises that originate in financial markets and in the banking sector differ from each other as well as from the COVID-19 crisis that harmed the real economy first Compares the policies and outcomes of nations to the COVID-19 pandemic and assesses their costs and benefits, with potential implications for prospective future crises

2022 Douglas J. Besharov "For many decades, American liberals have pointed to Europe's social welfare systems as a model for the US. As Senator Bernie Sanders famously said: "I think we should look to countries like Denmark, like Sweden and Norway, and learn what they have accomplished for their working people" (Moody, 2016)"--
