[Women in the Medieval Spanish Epic and Lyric Traditions](#) 2021-05-11 Lucy A. Sponsler The culture of medieval Spain was anything but homogeneous. It varied not only through time, with the approach of the Renaissance, but also geographically, with great differences between north and south. In this study, author Lucy A. Sponsler illuminates the role of women during this interesting period by exploring their portrayal in literature. *Women in the Medieval Spanish Epic and Lyric Traditions* examines the various ways in which women were portrayed in the formative years of medieval society, as well as the development of these views as new social mores evolved. Employing a thorough examination of the literature, Sponsler reveals that a high degree of respect was demonstrated toward women in Spanish prose and poetry of this period. Her study sheds new light on the role of women in relation to men, family, and social organization in medieval Spain.

Take a Closer Look 2013-09-08 Daniel Arasse What painting can teach us—if we can really learn to see them What happens when we look at a painting? What do we think about? What do we imagine? How can we explain, even to ourselves, what we see or think we see? And how can art historians interpret with any seriousness what they observe? In six engaging, short narrative "fictions," each richly illustrated in color, Daniel Arasse, one of the most brilliant art historians of our time, cleverly and gracefully guides readers through a variety of adventures in seeing, from Velázquez to Titian, Bruegel to Tintoretto. By demonstrating that we don't really see what these paintings are trying to show us, Arasse makes it clear that we need to take a closer look. In chapters that each have a different form, including a letter, an interview, and an animated conversation with a colleague, the book explores how these pictures teach us about ways of seeing across the centuries. In the process, Arasse freshly lays bare the dazzling power of painting. Fast-paced and full of humor as well as insight, this is a book for anyone who cares about really looking at, seeing, and understanding paintings.

Read My Desire 2015-06-09 Joan Copjec In *Read My Desire*, Joan Copjec stages a confrontation between the theories of Jacques Lacan and those of Michel Foucault, protagonists of two powerful modern disciplines—psychoanalysis and historicism. Ordinarily, these modes of thinking only cross paths long enough for historicists to charge psychoanalysis with an indifference to history, but here psychoanalysis, via Lacan, goes on the offensive. Refusing to cede history to the historicists, Copjec makes a case for the superiority of Lacan's explanation of historical processes and generative principles. Her goal is to inspire a new kind of cultural critique, one that is "literate in desire," and capable of interpreting what is unsaid in the manifold operations of culture.

Power from the People 2012-08-13 Greg Pahl Over 90 percent of US power generation comes from large, centralized, highly polluting, nonrenewable sources of energy. It is delivered through long, brittle transmission lines, and then is squandered through inefficiency and waste. But it doesn't have to be that way. Communities can indeed produce their own local, renewable energy. *Power from the People* explores how homeowners, co-ops, nonprofit institutions, governments, and businesses are putting power in the hands of local communities through distributed energy programs and energy-efficiency measures. Using examples from around the nation - and occasionally from around the world - Greg Pahl explains how to plan, organize, finance, and launch community-scale energy projects that harvest energy from sun, wind, water, and earth. He also explains why community power is a necessary step on the path to energy security and community resilience - particularly as we face peak oil, cope with climate change, and address the need to transition to a more sustainable future. This book - the second in the Chelsea Green Publishing Company and Post Carbon Institute's Community Resilience Series - also profiles numerous communitywide initiatives that can be replicated elsewhere.

Imperfect Creatures 2016-02-26 Lucinda Cole Lucinda Cole's *Imperfect Creatures* offers the first full-length study of the shifting, unstable, but foundational status of "vermin" as creatures and category in the early modern literary, scientific, and political imagination. In the space between theology and an emergent empiricism, Cole's argument engages a wide historical swath of canonical early modern literary texts—William Shakespeare's *Macbeth*, Christopher Marlowe's *The Jew of Malta*, Abraham Cowley's *The Plagues of Egypt*, Thomas Shadwell's *The Virtuoso*, the Earl of Rochester's "A Ramble in St. James's Park,"

and Daniel Defoe's *Robinson Crusoe* and *Journal of the Plague Year*—alongside other nonliterary primary sources and under-examined archival materials from the period, including treatises on animal trials, grain shortages, rabies, and comparative neuroanatomy. As Cole illustrates, human health and demographic problems—notably those of feeding populations periodically stricken by hunger, disease, and famine—were tied to larger questions about food supplies, property laws, national identity, and the theological imperatives that underwrote humankind's claim to dominion over the animal kingdom. In this context, Cole's study indicates, so-called "vermin" occupied liminal spaces between subject and object, nature and animal, animal and the devil, the devil and disease—even reason and madness. This verminous discourse formed a foundational category used to carve out humankind's relationship to an unpredictable, irrational natural world, but it evolved into a form for thinking about not merely animals but anything that threatened the health of the body politic—humans, animals, and even thoughts.

Tropic of Cancer 2015-06-04 Henry Miller Shocking, banned and the subject of obscenity trials, Henry Miller's first novel *Tropic of Cancer* is one of the most scandalous and influential books of the twentieth century. *Tropic of Cancer* redefined the novel. Set in Paris in the 1930s, it features a starving American writer who lives a bohemian life among prostitutes, pimps, and artists. Banned in the US and the UK for more than thirty years because it was considered pornographic, *Tropic of Cancer* continued to be distributed in France and smuggled into other countries. When it was first published in the US in 1961, it led to more than 60 obscenity trials until a historic ruling by the Supreme Court defined it as a work of literature. Long hailed as a truly liberating book, daring and uncompromising, *Tropic of Cancer* is a cornerstone of modern literature that asks us to reconsider everything we know about art, freedom, and morality. 'At last an unprintable book that is fit to read' Ezra Pound 'A momentous event in the history of modern writing' Samuel Beckett 'The book that forever changed the way American literature would be written' Erica Jong Henry Miller (1891-1980) is one of the most important American writers of the 20th century. His best-known novels include *Tropic of Cancer* (1934), *Tropic of Capricorn* (1939), and the *Rosy Crucifixion* trilogy (*Sexus*, 1949, *Plexus*, 1953, and *Nexus*, 1959), all published in France and banned in the US and the UK until 1964. He is widely recognised as an irreverent, risk-taking writer who redefined the novel and made the link between the European avant-garde and the American Beat generation.

The Violence of Modernity 2020-03-03 Debarati Sanyal *The Violence of Modernity* turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary "wound culture." In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both from his traditional status as a practitioner of "art for art's sake" and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

Achilles in Love 2012-12-20 Marco Fantuzzi Tracing the escapades of Achilles' erotic history - whether in

same-sex or opposite-sex relationships - this book explains how these relationships were developed and revealed, or elided and concealed, in the writing and visual arts following Homer.

Greek Identity and the Athenian Past in Chariton 2007 Steven D. Smith I, Chariton of Aphrodisias, secretary of the rhetor Athenagoras, shall relate a love story that took place in Syracuse. Thus begins the earliest of the canonical Greek romances, the 1st century CE historical novel known as Callirhoe. Chariton's erotic tale is about the constancy of love in a world where virtue is always in danger of being corrupted. Chaereas and Callirhoe fall in love, but then are tragically separated after the heroine, believed dead, is buried alive. Each is eventually sold into slavery in the East, and Callirhoe herself contemplates the abortion of her unborn child when she is forced to marry a man she does not love. Hero and heroine are finally reunited in the foreign city of Babylon, only to be plunged into a war between Persia and Egypt. Classical Athenian historiography, philosophy, oratory, myth and drama were all integral in shaping this timely work of fiction set in the years following Athens' doomed Sicilian Expedition (415-413 BC). Chariton's novel is more, though, than just a romanticized representation of a famous episode from Greek history. The novel is clearly meant to be read for pleasure, but it also has a political edge. By imaginatively redeploying Athenian literature and political discourse in the construction of his fictional world, Chariton gives voice to contemporary concerns about freedom, tyranny, the ever-expanding meaning of Greek identity, and the role of Greek culture in a world dominated by Rome. This is a book that will be of value to anyone interested in Greek literature, the classical tradition, and the complex relationship between art and empire.

Why We Play 2016 Roberte Hamayon Play is one of humanity's straightforward yet deceitful ideas: though the notion is unanimously agreed upon to be universal, used for man and animal alike, nothing defines what all its manifestations share, from childish playtime to on stage drama, from sporting events to market speculation. Within the author's anthropological field of work (Mongolia and Siberia), playing holds a core position: national holidays are called "Games," echoing in that way the circus games in Ancient Rome and today's Olympics. These games convey ethical values and local identity. Roberte Hamayon bases her analysis of the playing spectrum on their scrutiny. Starting from fighting and dancing, encompassing learning, interaction, emotion and strategy, this study heads towards luck and belief as well as the ambiguity of the relation to fiction and reality. It closes by indicating two features of play: its margin and its metaphorical structure. Ultimately revealing its consistency and coherence, the author displays play as a modality of action of its own. "Playing is no 'doing' in the ordinary sense" once wrote Johan Huizinga. Isn't playing doing something else, elsewhere and otherwise ?

Migrants and Literature in Finland and Sweden 2018-10-26 Satu Gröndahl Migrants and Literature in Finland and Sweden presents new comparative perspectives on transnational literary studies. This collection provides a contribution to the production of new narratives of the nation. The focus of the contributions is contemporary fiction relating to experiences of migration. The volume discusses multicultural writing, emerging modes of writing and generic innovations. When people are in motion, it changes nations, cultures and peoples. The volume explores the ways in which transcultural connections have affected the national self-understanding in the Swedish and Finnish context. It also presents comparative aspects on the reception of literary works and explores the intersectional perspectives of identities including class, gender, ethnicity, 'race' and disability. Further, it also demonstrates the complexity of grouping literatures according to nation and ethnicity. The case-studies are divided into three chapters: II 'Generational Shifts', III 'Reception and Multicultural Perspectives' and IV 'Writing Migrant Identities'. The migration of Finnish labourers to Sweden is reflected in Satu Gröndahl's and Kukku Melkas's contributions to this volume, the latter also discusses material related to the placing of Finnish war children ('krigsbarn') in Sweden during World War II. Migration between Russia and Finland is discussed by Marja Sorvari, while Johanna Domokos attempts at mapping the Finnish literary field and offering a model for literary analysis. Transformations of the Finnish literary field are also the focus of Hanna-Leena Nissilä's article discussing the reception of novels by a selection of women authors with an im/migrant background. The African diaspora and the arrival of refugees to Europe from African countries due to wars and political conflicts in the 1970s is the backdrop of Anne Heith's analysis of migration and literature, while Pirjo Ahokas deals with literature related to the experiences of a Korean adoptee in Sweden. Migration from Africa to Sweden also forms the setting of Eila Rantonen's article about a novel by a successful, Swedish author with roots in Tunisia. Exile, gender and disability are central, intertwined themes of Marta Ronne's article, which discusses the work of a Swedish-Latvian author who arrived in Sweden in connection to World War II. This collection is of particular interest to students and scholars in literary and Nordic studies as well as transnational and migration studies.

Translation and Globalization 2013-05-13 Michael Cronin Translation and Globalization is essential reading for anyone with an interest in translation, or a concern for the future of our world's languages and cultures. This is a critical exploration of the ways in which radical changes to the world economy have affected contemporary translation. The Internet, new technology, machine translation and the emergence of a worldwide, multi-million dollar translation industry have dramatically altered the complex relationship between translators, language and power. In this book, Michael Cronin looks at the changing geography of translation practice and offers new ways of understanding the role of the translator in globalized societies and economies. Drawing on examples and case-studies from Europe, Africa, Asia, and the Americas, the author argues that translation is central to debates about language and cultural identity, and shows why consideration of the role of translation and translators is a necessary part of safeguarding and promoting linguistic and cultural diversity.
