### **Effects of instrumental materials on student's academic performance. Social studies in selected secondary schools in Nigeria**

2016-09-05 Kenobi Krukru Bachelor Thesis from the year 2015 in the subject Sociology - Children and Youth, grade: 2.1, , course: Adult Education, language: English, abstract: The aim of this study is to find out the effect of instructional materials on students' academic performance in social studies in Etung Local Government Area of Cross River State. The researcher formulated three research questions to direct the study after a review of relevant and related literature in chapter two. The investigator, in his design, adopted the descriptive survey design which studied samples of both large and small populations to discover the relative incidence. The population of study was JSS two students of 2013/2014 session who were used for the random sampling technique. The instrument for data collection was a fifteen-item questionnaire and information coded therein was analyzed using the simple percentage. From the analysis some results were arrived at and based on the results and findings, recommendations were made: 1. The public should be aware of the uses of instructional materials which will aid in the understanding of social studies; 2. Emphasis must be placed on instructional materials in order to inculcate the spirit of learning social studies; and finally, government and non-governmental agencies should assist in the provision of instructional materials for effective teaching and learning of social studies in secondary schools.
