2016-09-14 H. G. Wells This book is a collection of eight short stories written by H. G. Wells.

"The Short Stories of H. G. Wells" constitutes a must-have for lovers of the short story form and is not to be missed by fans of Wells' fantastic work. Herbert George Wells (1866 - 1946) was a prolific English writer who wrote in a variety of genres, including the novel, politics, history, and social commentary. Today, he is perhaps best remembered for his contributions to the science fiction genre thanks to such novels as "The Time Machine" (1895), "The Invisible Man" (1897), and "The War of the Worlds" (1898). "The Father of Science Fiction" was also a staunch socialist, and his later works are increasingly political and didactic. The stories include: "The Time Machine", "The Empire of the Ants", "A Vision of Judgement", "The Land Ironclads", "The Beautiful Suit", "The Door in the Wall", "The Pearl of Love", and "The Country of the Blind". Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.

2018-12 Philip K. Dick A man at a train station first requests a destination which does not exist - then winks out of existence in a moment. The captain of an interstellar travel ship is hired to take a passenger to Earth - that legendary planet which never existed. A cynical father refuses to purchase a bomb shelter for his family - though his son is terrified of perishing in an upcoming war. The wife of a man recently returned from a different planet is convinced his mind has been taken over by some other being - but finds this new husband much preferable to the old one...

2022-12-13 H. G. Wells Adapted into episode one of the TV mini-series, The Nightmare Worlds of H.G. Wells - starring Ray Winstone and Michael Gambon - The Story of the Late Mr. Elvisham is a short story by H.G. Wells. A young, poverty-

stricken man called Edward Eden meets a strange older gentleman, Egbert Elvisham, who declares that he would like Eden to be his sole heir. At the end of a meal together, Elvisham pours a strange pink powder into their drinks and the following day, Edward Eden wakes to find himself in Elvisham's body in a 'Freaky Friday' body-swapping scenario. Eden is destined for more than he signed up for in this fantasy, horror story. H.G. Wells (1866 - 1946) was a prolific writer and the author of more than 50 novels. Additionally, he wrote more than 60 short stories, alongside various scientific papers. Many of his most famous works have been adapted for film and television, including 'The Time Machine,' starring Guy Pearce, 'War of the Worlds,' starring Tom Cruise, and 'The Invisible Man,' starring Elizabeth Moss. Because of his various works exploring futuristic themes, Wells is regarded as one of the 'Fathers of Science Fiction.'

2013-01-01 Morgan Rice After he escapes from the dungeon, Thor is horrified to learn of another assassination attempt on King MacGil. When MacGil dies, the kingdom is set into turmoil. As everyone vies for the throne, King's Court is more rife than ever with its family dramas, power struggles, ambitions, jealousy, violence and betrayal. An heir must be chosen from among the children, and the ancient Dynasty Sword, the source of all their power, will have a chance to be wielded by someone new. But all this might be upended: the murder weapon is recovered, and the noose tightens on finding the assassin. Simultaneously, the MacGils face a new threat by the McClouds, who are set to attack again from within the Ring. Thor fights to win back Gwendolyn's love, but there may not be time: he is told to pack up, to prepare with his brothers in arms for The Hundred, a hundred grueling days of hell that all Legion members must survive. The Legion will have to cross the Canyon, beyond the protection of the Ring, into the Wilds, and set sail across

the Tartuvian Sea for the Isle of Mist, said to be patrolled by a dragon, for their initiation into manhood. Will they make it back? Will the Ring survive in their absence? And will Thor finally learn the secret of his destiny? With its sophisticated world-building and characterization, A MARCH OF KINGS is an epic tale of friends and lovers, of rivals and suitors, of knights and dragons, of intrigues and political machinations, of coming of age, of broken hearts, of deception, ambition and betrayal. It is a tale of honor and courage, of fate and destiny, of sorcery. It is a fantasy that brings us into a world we will never forget, and which will appeal to all ages and genders. It is 60,000 words. Book #3 in the series will be published soon.

2017-01-31 Francois Truffaut Based on the famous series of dialogues between Francois Truffaut and Alfred Hitchcock from the 1960s, the book moves chronologically through Hitchcock's films to discuss his career, techniques, and effects he achieved. It changed the way Hitchcock was perceived, as a popular director of suspense films - such as Psycho and The Birds - and revealed to moviegoers and critics, the depth of Hitchcock's perception and his mastery of the art form. As a result of the changed perceptions about Hitchcock, his masterpiece, Vertigo, hit the No 1 slot in Sight & Sound's recent poll of film-makers and critics, displacing Citizen Kane as the Best Film of all time.

2017-01-01 H. G. Wells When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

2010-12-23 Robert Crais They killed the only one who ever cared and now they're going to pay. A reckoning has come to the City of Angels...

Karen Garcia is missing and her father doesn't trust the cops - he wants someone he knows on the case. So he enlists the help of Elvis Cole and Joe Pike. It seems that Karen is the latest victim of a distinctive serial killer and the police are determined to pin her death, and four others, on the witness who found her body. Cole doesn't believe the man has the guts to murder, and with his partner and the police at each other's throats, it's down to him to find the connection that will reveal the killer. But nailing the murderer means choosing between the two people he cares most about...

2011-06-16 Oliver Sacks As with his previous bestseller, The Man Who Mistook His Wife for a Hat, in An Anthropologist on Mars Oliver Sacks uses case studies to illustrate the myriad ways in which neurological conditions can affect our sense of self, our experience of the world, and how we relate to those around us. Writing with his trademark blend of scientific rigour and human compassion, he describes patients such as the colour-blind painter or the surgeon with compulsive tics that disappear in the operating theatre; patients for whom disorientation and alienation - but also adaptation - are inescapable facts of life. 'An inexhaustible tourist at the farther reaches of the mind, Sacks presents, in sparse, unsentimental prose, the stories of seven of his patients. The result is as rich, vivid and compelling as any collection of short fictional stories' - Independent on Sunday  
2009-11-12 Sidney Sheldon The spellbinding sequel to Sidney Sheldon's MASTER OF THE GAME, one of the most glamorous and suspenseful tales ever told...

2019-04-04 Antonio Iturbe For readers of The Tattooist of Auschwitz and The Choice: this is the story of the smallest library in the world - and the most dangerous. 'It wasn't an extensive library. In fact, it consisted of eight books and some of them were in poor condition. But they were books. In this incredibly dark place, they were a reminder of less sombre times, when words rang out more loudly than machine guns...' Fourteen-year-old Dita is one of the many imprisoned by the Nazis at Auschwitz. Taken, along with her mother and father, from the Terezín ghetto in Prague, Dita is adjusting to the constant terror that is life in the camp. When Jewish leader Freddy Hirsch asks Dita to take

charge of the eight precious books the prisoners have managed to smuggle past the guards, she agrees. And so Dita becomes the secret librarian of Auschwitz, responsible for the safekeeping of the small collection of titles, as well as the 'living books' - prisoners of Auschwitz who know certain books so well, they too can be 'borrowed' to educate the children in the camp. But books are extremely dangerous. They make people think. And nowhere are they more dangerous than in Block 31 of Auschwitz, the children's block, where the slightest transgression can result in execution, no matter how young the transgressor... The Sunday Times bestseller for readers of *The Boy in the Striped Pyjamas*, *The Tattooist of Auschwitz* and *The Choice*. Based on the incredible and moving true story of Dita Kraus, holocaust survivor and secret librarian for the children's block in Auschwitz.

2015-06-23 Caseen Gaines A behind-the-scenes look at the making of the iconic *Back to the Future* trilogy—the perfect movie gift for fans of the franchise, actors, writers, and filmmakers who contributed to this beloved pop culture phenomenon. Long before Marty McFly and Doc Brown traveled through time in a flying DeLorean, director Robert Zemeckis, and his friend and writing partner Bob Gale, worked tirelessly to break into the industry with a hit. During their journey to realize their dream, they encountered unprecedented challenges and regularly took the difficult way out. For the first time ever, the story of how these two young filmmakers struck lightning is being told by those who witnessed it. *We Don't Need Roads* draws from over 500 hours of interviews, including original interviews with Zemeckis, Gale, Christopher Lloyd, Lea Thompson, Huey Lewis, and over fifty others who contributed to one of the most popular and profitable film trilogies of all time. The book includes a 16-page color photo insert with behind-the-scenes pictures, concept art, and more. With a focus not only on the movies, but also the lasting impact of the franchise and its fandom, *We Don't Need Roads* is the ultimate read for anyone who has ever wanted to ride a Hoverboard, hang from the top of a clock tower, travel through the space-time continuum, or find out what really happened to Eric Stoltz after the first six weeks

of filming. So, why don't you make like a tree and get outta here—and start reading! *We Don't Need Roads* is your density. "What fun! Deeply researched and engagingly written...the book *Back to the Future* fans have been craving for decades. Geekily enthusiastic and chock full of never-before-heard tales of what went on both on and off the screen, *We Don't Need Roads* is a book worthy of the beloved trilogy itself."—Brian Jay Jones, author of the national bestseller *Jim Henson: The Biography* "A very compelling and enjoyable history of our trilogy. For me, reading it was like going back in time. And—Great Scott—there were even a few anecdotes that I'd never heard!"—Bob Gale, co-creator, co-producer, and co-writer of the *Back to the Future* trilogy

2009-08-17 Quentin Tarantino From the most original and beloved screenwriter of his generation, the complete Oscar-nominated screenplay of Quentin Tarantino's World War II epic *Inglourious Basterds*. From the brilliant writer/director behind the iconic films *Pulp Fiction*, *Kill Bill*, and *Once Upon a Time in Hollywood*, comes Tarantino's most ambitious movie: a World War II epic starring Brad Pitt and filmed on location in Germany and France. The action tale follows the parallel story of a guerrilla-like squad of American soldiers called "The Basterds" and the French Jewish teenage girl Shosanna who find themselves behind enemy Nazi lines during the German occupation. When the *Inglourious Basterds* encounter Shosanna at a propaganda screening at the movie house she runs, they conspire to launch an unexpected plot to end the war. Pitt plays Lieutenant Aldo Raine -- the leader of the *Basterds*. Raine is an illiterate hillbilly from the mountains of Tennessee who puts together a team of eight Jewish-American soldiers to hunt down the Nazis. Filled with Tarantino's trademark electric dialogue and thrilling action sequences, *Inglourious Basterds* is one of the most celebrated films of the twenty-first century. 2004 Jade Michaels De muisjes Mina en Merlin schrikken van vreemd lawaai in huis. Ze vragen hun oom om op onderzoek uit te gaan. Met kleurenillustraties en opdrachten. Vanaf ca. 8 tot 10 jaar.

2022-07-04 H.G. Wells In 1940 the Second World War continued to rage, and atrocities

wreaked around the globe made international waves. Wells, a socialist and prominent political thinker as well as a first-rate novelist, set down in *The Rights of Man* a stirring manifesto, designed to instruct the international community on how best to safeguard human rights. The work gained traction, and was soon under discussion for becoming actual legislation. Although Wells didn't live to see it enacted, his words laid the groundwork for the Universal Declaration of Human Rights, which enshrined human rights in law for the first time, and was adopted by the United Nations in 1948, changing the course of history for ever and granting fundamental rights to billions. This edition has an introduction by Burhan Sönmez, President of PEN International, 'He Told Us So'. 'A born story-teller.' J.B. Priestly 'A great artist.'

2004 M. Elizabeth Ginway Science fiction, because of its links to science and technology, is the consummate literary vehicle for examining the perception and cultural impact of the modernization process in Brazil. Because of the centrality of the role played by the military dictatorship (1964-85) in imposing industrialization and economic development policies on Brazil, this book examines the genre in the periods before, during, and after the dictatorship, encompassing the years 1960-2000. The analysis shows that a reading of Brazilian science fiction based on its use of paradigms of Anglo-American science fiction and myths of Brazilian nationhood provides a unique look into Brazil's modern metamorphosis as it finds itself on the periphery of the globalized world.

2014-03-18 H. G. Wells It was in a swampy village on the lagoon river behind the Turner Peninsula that Pollock's first encounter with the Porroh man occurred. The women of that country are famous for their good looks—they are Gallinas with a dash of European blood that dates from the days of Vasco de Gama and the English slave-traders, and the Porroh man, too, was possibly inspired by a faint Caucasian taint in his composition. (It's a curious thing to think that some of us may have distant cousins eating men on Sherboro Island or raiding with the Sofas.) At anyrate, the Porroh man stabbed the woman to the heart as though he had been a mere low-class Italian, and very narrowly missed

Pollock. But Pollock, using his revolver to parry the lightning stab which was aimed at his deltoid muscle, sent the iron dagger flying, and, firing, hit the man in the hand.

2022-11-21 Marcus Tullius Cicero The following work is a collection of essays by Cicero, regarding friendship and old age. The *Treatise on Friendship* is written as a dialogue between prominent figures of the Middle Roman Republic and is set after the death of the younger Scipio Africanus (otherwise known as Scipio Aemilianus, Scipio Africanus Minor or Scipio the Younger). The interlocutors of the dialogue chosen by Cicero are Gaius Laelius, a close friend of the late statesman, and Laelius's two sons-in-law, Gaius Fannius, and Quintus Mucius Scaevola. As for *The Treatise of Old Age*, it was written by Cicero in his sixty-third year, and is addressed to his friend Atticus. Cicero represents the discourse as delivered by the elder Cato (in his eighty-fourth year) on occasion of young Scipio and Laelius expressing their admiration at the wonderful ease with which he still bore the load of life. Cicero acknowledges that the sentiments put into the mouth of Cato are really Cicero's own. His purpose is to show that old age is not only tolerable, but comfortable by internal resources of happiness.

2013-06-06 Peter Burke In this book Peter Burke adopts a socio-cultural approach to examine the changes in the organization of knowledge in Europe from the invention of printing to the publication of the French *Encyclopédie*. The book opens with an assessment of different sociologies of knowledge from Mannheim to Foucault and beyond, and goes on to discuss intellectuals as a social group and the social institutions (especially universities and academies) which encouraged or discouraged intellectual innovation. Then, in a series of separate chapters, Burke explores the geography, anthropology, politics and economics of knowledge, focusing on the role of cities, academies, states and markets in the process of gathering, classifying, spreading and sometimes concealing information. The final chapters deal with knowledge from the point of view of the individual reader, listener, viewer or consumer, including the problem of the reliability of knowledge discussed so vigorously in the seventeenth century. One of the most original

features of this book is its discussion of knowledges in the plural. It centres on printed knowledge, especially academic knowledge, but it treats the history of the knowledge 'explosion' which followed the invention of printing and the discovery of the world beyond Europe as a process of exchange or negotiation between different knowledges, such as male and female, theoretical and practical, high-status and low-status, and European and non-European. Although written primarily as a contribution to social or socio-cultural history, this book will also be of interest to historians of science, sociologists, anthropologists, geographers and others in another age of information explosion.

2003 Joseph Campbell Joseph Campbell, arguably the greatest mythologist of our time, was certainly one of our greatest storytellers. This new cloth edition of *The Hero's Journey*, published to celebrate the 100th anniversary of Campbell's birth, recounts his own quest and conveys the excitement of his lifelong exploration of our mythic traditions, what he called "the one great story of mankind."

2010-05-14 Philip K. Dick Imagine a future where crimes can be detected before they are committed, and criminals are convicted and sentenced for crimes before committing them. This is the scenario of Philip K. Dick's classic story, now filmed by Steven Spielberg, starring Tom Cruise. In addition to *MINORITY REPORT* this exclusive collection includes nine other outstanding short stories by the twentieth century's outstanding SF master, three of which have been made into feature films.

2012-09-18 David Gilmour Like a tourist visiting his own life, David Gilmour's narrator journeys in time to reexamine those critical moments that created him. He revisits the terrible hurt of a first love, the shock of a parent's suicide, the trauma of a best friend's bizarre dissembling, and the pain and humiliation of unrelenting jealousy, among other rites of passage. Set within an episodic narrative arc stories about the profound effect of Tolstoy, of the Beatles, of the cult of celebrity, of the delusion of drugs, and of the literary life on the winding road of the narrator's progress. This compelling and deeply interesting picaresque novel is a creative tour de force from the hand of one of our master storytellers. *The Perfect Order of Things* breaks

new fictional ground and is an astonishing story of a life lived fully and with breathtaking passion. David Gilmour is a novelist who has earned critical praise from literary figures as diverse as William Burroughs and Northrop Frye, and from publications as different as the *New York Times* to *People* magazine. The author of six novels, he also hosted the award-winning Gilmour on the Arts. In 2005, his novel *A Perfect Night to Go to China* won the Governor General's Award for Fiction. His next book, *The Film Club*, was a finalist for the 2008 Charles Taylor Prize. It became an international bestseller, and has sold over 200,000 copies in Germany and over 100,000 copies in Brazil. He lives in Toronto with his wife.

2016-08-18 Anonymous Hurt people hurt people. Say there was a novel in which Holden Caulfield was an alcoholic and Lolita was a photographer's assistant and, somehow, they met in *Bright Lights, Big City*. He's blinded by love. She by ambition. *Diary of an Oxygen Thief* is an honest, hilarious, and heartrending novel, but above all, a very realistic account of what we do to each other and what we allow to have done to us.

2012-06-21 Helene Hegemann 'Horrible lives are a godsend,' writes 16-year-old Mifti in her diary. Since the death of her mother, she has been living in Berlin in an increasingly dire state of disarray. Diagnosed as a 'pseudo stress-debilitated' problem child, she becomes enmeshed in the Berlin party scene, surviving her so called life through a haze of sex, drugs and club culture. What sets Mifti apart is her hypersensitivity and her open, questioning curiosity about an older generation that doesn't seem to be able to care for its children. Torn between genius and madness, she delves into the language of adults, their conventions and toys with what she calls, 'the general decay of their worlds, where the pursuit of prosperity has led to neglect'.

1986-08-18 Gary K. Wolfe The critical vocabulary of the mainstream often give short shrift to the fantastic, and scholars of the fantastic have often had to look elsewhere for their critical terminology. Such scholars will find Wolfe's work an excellent resource. Choice.

2016-02-16 Eiichi Shimizu, Tomohiro Shimoguchi The enigmatic Moroboshi takes Shinjiro, who is still having doubts about fighting as Ultraman,

through a strange gate to a secret alien city. There he meets a new informant and cannot avoid getting mixed up in a feud beyond his control. Meanwhile on Earth, the police and the Science Patrol go deeper into a sinister investigation when a new victim of a mysterious serial killer turns up. -- VIZ Media

2012-11-30 Arthur C. Clarke A "superbly ingenious" classic of space survival from the author of 2001: A Space Odyssey—one of science fiction's most influential grandmasters (Daily Express). Expanding the Moon's population hinges on building a thriving tourist industry. But when a prototype tourist craft called the Selene encounters a moonquake, the ship plummets under a vast body of liquid-fine moondust called the Sea of Thirst. While time runs out for the passengers and crew, rescuers find their resources stretched to the limit by the unpredictable conditions of the lunar environment. Nominated for the Hugo Award in 1963, this brilliantly imagined story of human ingenuity and survival is a tour-de-force of psychological suspense and sustained dramatic tension sure to appeal to fans of Andy Weir's *The Martian*. "The best book yet about man's most dramatic journey, the most exciting science fiction novel for years." —Evening Standard "Expertly told and cruelly exciting to the end." —The Sunday Times "Extremely good . . . with some superbly ingenious and exciting new twists." —Daily Express

2005 Márcio Souza

1960 Helen Caldwell

1990 Isaac Asimov Science fiction-noveller.

2013 Philip K. Dick A Maze of Death is a sci-fi murder mystery set on a mysterious planet, with a twist ending that leaves the reader wondering just what they've been witnessing the whole time.

2021-02-09 Daniel Defoe The Shipwreck Collection includes four novels: Robinson Crusoe, Gulliver's Travels, Treasure Island, and The Island of Doctor Moreau. Robinson Crusoe follows the sole survivor of a shipwreck on a deserted island. Confronted by hunger and the elements, Crusoe builds a home, grows crops, tames wild animals, and survives cannibals and mutineers. Gulliver's Travels shows how one man can be shipwrecked, then abandoned, then attacked by strangers, then attacked by his own

crew. Gulliver believes what he is told, never perceives deeper meanings, is an honest man, and expects others to be honest. Treasure Island follows the adventures of a cabin boy named Jim Hawkins. Hawkins is in for the adventure of a lifetime, as he braves dangerous waters, lives through a mutiny, and searches for buried treasure. In *The Island of Dr Moreau* Edward Prendick finds himself shipwrecked in the middle of the ocean, but is soon rescued by a passing boat. He is taken to the island home of Doctor Moreau, who creates human-like hybrid beings from animals.

2014-11-28 Frank Biermann A new model for effective global environmental governance in an era of human-caused planetary transformation and disruption. Humans are no longer spectators who need to adapt to their natural environment. Our impact on the earth has caused changes that are outside the range of natural variability and are equivalent to such major geological disruptions as ice ages. Some scientists argue that we have entered a new epoch in planetary history: the Anthropocene. In such an era of planet-wide transformation, we need a new model for planet-wide environmental politics. In this book, Frank Biermann proposes "earth system" governance as just such a new paradigm. Biermann offers both analytical and normative perspectives. He provides detailed analysis of global environmental politics in terms of five dimensions of effective governance: agency, particularly agency beyond that of state actors; architecture of governance, from local to global levels; accountability and legitimacy; equitable allocation of resources; and adaptiveness of governance systems. Biermann goes on to offer a wide range of policy proposals for future environmental governance and a revitalized United Nations, including the establishment of a World Environment Organization and a UN Sustainable Development Council, new mechanisms for strengthened representation of civil society and scientists in global decision making, innovative systems of qualified majority voting in multilateral negotiations, and novel institutions to protect those impacted by global change. Drawing on ten years of research, Biermann formulates earth system governance as an empirical reality and a political necessity.

2015-08-24 H. G. Wells H. G. Wells was one of the most influential science fiction writers of all times. His three most important novels *The Time Machine*, *The War of the Worlds*, and *The Island of Dr. Moreau* still seem as fresh today as when he first wrote them. *The Time Machine* explores human nature. The Time Traveler finds himself in 802,701 A.D., where he meets the peaceful Eloi and encounters the violent Morlocks. Wells uses these two descendants of man to explore evil and its causes, drawing conclusions that might surprise you in this riveting tale that has stood the test of time. This deluxe edition has the deleted portion of chapter eleven that ran in the original serialization, but was removed by Wells for book publication; it runs after the story as the "Gray Man." In addition to the "Gray Man" this edition also contains the full text of "The Chronic Argonauts" Wells' first time travel story which he borrows liberally from for *The Time Machine*. In *War of the Worlds* Mankind finds itself in a fight for its very survival when invaders from Mars land on Earth. Using their vastly superior technology the Martians make short order of all the great powers of Earth, laying waste to everything in their path. The novel follows an unnamed man as he flees for his life while trying to locate his wife in the shattered ruins of Earth. Powerful and insightful. *Island of Doctor Moreau*: Edward Prendick finds himself adrift at sea, a lone survivor of a ship wreck. He spends more than a week drifting without food or water. Prendick consigns himself to death, but fate intervenes and delivers him to an unknown Island. The terrors that await him on Doctor Moreau's island are far worse than what he has just been rescued from or anything that he could imagined.

2013-08-29 Samuel R. Delany In *Starboard Wine*, Samuel Delany explores the implications of his now-famous assertion that science fiction is not about the future. Rather, it uses the future as a means of talking about the present and its potentiality. By recognizing a text's specific "difference", we begin to see the quality of its particulars. Through riveting analyses of works by Joanna Russ, Robert Heinlein, Theodore Sturgeon, and Thomas M. Disch, Delany reveals critical strategies for reading that move beyond overwrought theorizing and formulaic thinking.

Throughout, the author performs the kinds of careful inquiry and urgent speculation that he calls others to engage in.

2017-01-09 H. G. Wells This volume unites four of Wells' liveliest and most engaging tales of the strange evolution and behaviour of animals - including human beings. *The Island of Doctor Moreau* is followed by three fantastic yet chillingly plausible short stories of human-animal encounters.

2021-07-29 Francisco Medina Narrated in a dizzying way, with scenarios that seem to be extracted from a futuristic film, you will immerse yourself in *Ivi*, a parallel universe where wizards and fairies live apart as the only way to guarantee peaceful coexistence. In the midst of a forbidden love between a fairy and a wizard, fantastic beings from enemy clans, we have the beginning of a great conflict, which becomes even more intense when one of the creatures, the most powerful one on *Ivi*, is in love with the wizard and willing to anything for his love. The reader is then transported to a thriller of romance and suspense and starts to root for each of the characters.
