They will love these unforgettable moments with you! If you only buy one toddler coloring book, make sure it's this one! I'm Mark and together with my partner Jane we came up with the concept of The Learning Bugs, the fun characters who appear regularly throughout the book. Giggles the ladybug, Squiggles the caterpillar and Zapp the bee are not only entertaining but they engage and ask questions and give your child interesting facts. As parents ourselves we couldn't find a coloring book for young children that we were completely happy with so we decided to create our own. We then conducted research with over 500 fellow parents who helped shape the book you can purchase today. Welcome to the magical world of The Learning Bugs where kids play and have fun while learning at the same time. This will help them throughout their life as they build the habit of being inquisitive and asking questions. Why Buy This Book? Talented artists have hand-drawn unique illustrations that are beautiful but simple, cute and fun. Good value - we made sure to have plenty of pages (over 100). 2022-07-15 Ilgim Veryeri Alaca Consumable Reading and Children's Literature explores how multisensory experiences enhance early childhood literacy practices through material and sensory interactions. Embodied engagements that focus on the gustatory experience and, in particular, the sense of taste are investigated by studying food-related narratives. Children's literature and different reading scenarios involving consumable objects, packages, tableware and utensils are scrutinized. Surfaces, the underlying mechanisms that support children's literature, are considered in connection to emerging media and groundbreaking technologies. The interdisciplinary nature of this work draws on material and surface science, human-computer interaction, arts and food studies. As innovation and everyday materials meet, the

potential of hybrid narratives mimicking synesthesia emerges with discussions on cross-modal learning. This monograph will inspire the interest of not only students, teachers, scholars of children's literature and child development but also researchers and practitioners across various artistic and scientific disciplines.

2022-06-24 Fox, Kathy R. Research has shown that families and schools that partner together improve literacy outcomes for their students. Family literacy includes homework and shared book reading but goes beyond these school-to-home activities to encompass family-generated practices. These literacies include family connections around activities such as cooking, play, religion, social, and community groups. Further study on the importance of the partnership between the home and school is required to implement best

practices and provide students with the best possible education. The Handbook of Research on Family Literacy Practices and Home-School Connections seeks to understand the connections made and new information learned during the COVID-19 pandemic surrounding family literacy and shares updated practices and new perspectives on what it means to partner with families and embrace diverse family literacies in this new world. The book also provides teachers' perspectives on how future relationships between the school and home can be shaped through both narrative and research-based chapters. Covering key topics such as parenting, homework, and social distancing, this major reference work is ideal for administrators, school faculty, academicians, scholars, practitioners, instructors, and students.
