Helen Winter This book is for adults who are absolute beginners in music. You don't have to read sheet music or have any kind of musical background. No previous knowledge is necessary. None at all. If you don't know musical notes well, you can PLAY BY LETTER. There are 7 sections and 43 songs. All songs are adapted for beginners and can be played with just one hand. Some songs in this book have several versions, with one of them being more advanced. This will allow you to

see how the same melody can be played in different keys. Whatever your age, it is never too late to begin to play the piano (or any keyboard instrument). For middle-aged people, learning a musical instrument can be a great digital detox, and it also can unlock the door to a new interest or forgotten emotions. Helen Winter We call this series "I don't read music" since we are

targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. All 70 songs in this book have been written without using the classic music score system, because it is for absolute beginner who can not read sheet music. This book is aimed for those who want to add popular melodies to their experimentation. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration. You can experiment with a duration on your own. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. The most important thing is to listen and repeat the recordings. All songs from this book are possible to play in one octave. These songs are suitable for a diatonic 8-note tongue drum, which should have numbers 1, 2, 3, 4, 5, 6, 7, and 1 of the next octave. Please note: if you have a model of the tongue drum with 5 tongues, or if some keys from the octave are missing, you will not be able to play all of the songs in this book. The songbook includes very simple, popular children's and folk songs, but even well-known children's songs played on the tong drum will create an unusual magical sound.

Hi. Now you are parents. Or grandparents. The second is much easier but does not free you from the duty of singing lullabies and other funny kids' songs to your little ones. Do you feel forced to sing them? It's not easy, is it? Especially if you're tone-deaf. Did your schoolmates study violin while you were playing hooky from music class? Now with the kids, you're stuck and everyone expects you to be a lullaby singer. Well, we have a solution for you. If your only singing has been in the shower, let us help you become a real musician. And you can do it with any instrument. Even a toy piano, if it is tuned. If you are a musician, this book is not for you. You can go play your instrument in an orchestra. Kids like simple music. We offer your a guaranteed time-tested set of cool kids' songs. These are famous kids' songs (which you'll recognize) and also some musical nursery rhymes threw in. What do you need for your musical success? Equipment for starters. Your instrument can even be jars with water. But for most songs, it'll be better if they are somewhat tuned. It could be any key instrument like a piano, melodica, kalimba, marimba, synthesizer, xylophone, glockenspiel, or a color bell set with 8 bells or more. Drums, tambourines, castanets, and music rattles are also welcome. The main argument for the idea of not being able to play in a band with your child immediately is I CANNOT READ MUSIC SHEET. Don't worry! You don't have to! We made our pictures large and as simple as possible. You'll easily play by circles. No musical staff or notes. Your listeners are not very critical and won't know the difference. Kids are the best listeners in the world. The sheet music book has 2 parts: Part 1. No musical staff or notes. Simply follow the circles with letters. To show the rhythm, we grouped the circles together. Every song in this section was adapted for the newbie - you - just 8 notes (one octave). Part 2. Here you'll see traditional musical notes and staff added. But don't worry - the helpful letters are still there. Important! You will be able to begin to play right away if the keys of your instrument have letter notations on the keys (like kalimba or xylophone). For other instruments, you just need to get and apply stickers with letter-notations. Just 8 stickers will be enough. Write

the notes with a marker - A B C D E F G and C8. Easy play songs were adapted especially for beginners. Attention: Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. If you have flat keys on your instrument, please use the classic music score for the piano. Songs: 1. Hot Cross Buns 2. Are you sleeping? 3. Helen Winter This sheet music book was written to help the beginner, be they, child or adult, learn to play music in a simple and easy way that requires no previous knowledge of music. Just by following the circles with letters, you will sound like an experienced musician. Playing music can be effortless and an enjoyable game. There are 3 levels in this book: Level 1 and 2 are for beginners and use circles with letter notation, instead of notes. Level 3 has letter notation and traditional musical notes. Level 1. Songs that are possible to play within the main octave. Level 2. Songs that need to be played in an octave other than the main octave, or songs that involve the flat notes. Now you will need to select the proper note/key by ear. Level 3. These songs have been written for one octave with ordinary "adult" musical notes and symbols. To begin to play right away without any musical knowledge, you just need to obtain and apply the stickers with letter-notation and on each key of your melodica. 2001-05-28 Gloria Weston The Second World War erupted when the author was a child and, like hundreds of other boys and girls, she was snatched out of the world she knew and thrown in at the deep end, to sink or swim, in another one. A world of stone cottages, iron ranges, strange local accents and weird food, not to mention homes without electricity, hot running water and indoor lavatories. The author had to learn to live with a new family and to understand their ways and how they expected her to behave. Also, she had to suffer the indignity of being, for her own family, almost out of sight, out of mind. After two years, she was sent to London to live and was obliged to learn yet another family and yet another way of life. She experienced air raids and the sudden horror of V.1 rockets, then, with the advent of the V.2s, she found herself back in Derbyshire, where things had changed as much as she had herself. Nostalgically, the author revives memories of wartime songs and radio programmes and the end of the story finds her in the midst of the victory celebrations in the heart of London on the very last day of the war.

Helen Winter The steel tongue drum (aka tong drum, tank drum, gluckophone, hapi drum, mandala, or lotus drum) and the handpan (aka hank drum, UFO drum, zen drum) are percussion musical instruments designed to help you focus on your feelings, sensations, and body. You don't need classical music training or knowledge of music theory to play them. The main purpose is relaxation, meditation, and traveling through your inner world. Playing traditional music notes is difficult for people who have no musical knowledge. You need to know the rhythmic value of each note, its place on the staff, note duration, and its combination with other notes. To be aware of all this simultaneously demands music experience and advanced skills. Nevertheless, even if you have never studied music, you can begin to play complicated melodies, and also experiment with your tongue drum in a meditative way. No previous training or skills are necessary to enjoy these fascinating instruments. It is impossible to play them incorrectly. Anyone can play them: those who want to develop a good sense of rhythm and an ear for music, those who are seeking relaxation after a hard day at work, those who have always had an interest in learning how to play a musical instrument, and those who want to introduce something unusual into their lives and explore their inner selves. All songs in this book have been written without using the classic music score system because it is for absolute beginners who cannot read sheet music. We collect very simple and well-known songs

and melodies with easy rhythms. You can begin to play just now using circles that contain either a number, without having to consider note duration, key, or time signatures. These numbers correspond to those on the keys of your tongue drum. So you just need to follow the numbers. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration - we just group the circles closer to each other to show the rhythms. You can experiment with a duration on your own. Because most tongue drums include and are tuned to involve the notes of the main octave, all songs from this book are possible to play in one octave. This book includes very simple, popular children's and folk songs, but even well-known children's songs played on the drum will create an unusual magical sound. Attention: Songs have been transposed for a DIATONIC range. Some melodies might be changed and simplified. 2015-06-14 E. Lawrence Abel During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, "The South must not only fight her own battles but sing her own songs and dance to music composed by her own children." Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background has been provided for many of the songs. Each entry provides as much of the following as possible (staying faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.

Helen Winter We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. This songbook includes 65 familiar and easy-to-play songs and melodies. Most songs have been simplified and transposed for one octave. So the songbook is suitable even for a diatonic 8-note kalimba in C-scale, and 10- or 17-note as well. Since this book is aimed at the absolute beginner without any knowledge of reading music, we do not use here the classical music staff and do not show the note duration. You can experiment with the duration on your own. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. The most important thing is to listen and repeat the recordings. If you are a beginner, playing by note can be difficult. It is easier to follow numbered circles in this songbook. By simply following the numbers, you will sound like an experienced musician.
