Dream Catchers 1999 Julie Black The Ojibwa people strongly believe in the myths and legends that make up their spiritual and cultural life. A significant part of the Ojibwa's spiritual life is the dreamcatcher. Although the exact genesis of this intriguing artifact is unknown, there are many beautiful and lyrical legends that reflect the dreamcatcher's beginnings. The dreamcatcher is a web-like structure built into a

circular frame. Beauty is derived in the dreamcatcher through the symmetry of natural accents. The frame is often made from fresh tender wood that is bent to form a hoop or circle into which a web is then woven. The web is often made of deer sinew or colored thread. Often the webs are 'spun' with a hole in the center and decorated with stones or feathers or other natural materials. The Ojibwa believe that the dreamcatcher will serve throughout one's life as an invitation for

good dreams to come to rest with the sleeper, as well as the fortification against nightmares and evil spirits. The good dreams flow through the web and into the dreamer, while the bad dreams and evil spirits are caught in the strands of the web and never reach the dreamer. One of the Ojibwa legends about the creation of the dreamcatcher suggests that the dreamcatcher was a gift from a spider to the Ojibwa people, in return for a favor an Ojibwa once did for the

spider. This theme, among many others, is carried throughout this gorgeously illustrated book that charts the development of this living legend through the combination of photography and text. The Ojibwa of the Great Lakes and St. Lawrence River Regions share a related history with many of their sister Algonquin tribes who can be found throughout the United States and Canada. The Ojibwa have introduced the dreamcatcher and its legends to the rest of the world as a living artifact of Native culture. Throughout history, the interaction between Ojibwa and other Native tribes has taught European settlers about the elusive boundary between the spiritual world, that is the world of consciousness and the world of dreams. Featured are more than 30 color photographs of contemporary dreamcatchers created by Native people with informative captions that identify and comment on the different patterns and their significance.

Elemental Macramé 2021-10-12 Rebecca Millar Create beautiful macramé projects that invoke the sacred elements of Earth, Air, Water, Fire and Spirit. The idea of classical 'elements' is common to many belief systems including Ancient Greek, Egyptian, Babylonian, Hinduism and Buddhism, as well as Chinese and Japanese philosophies. The five elements of the Pagan religion Wicca represent the five points of the pentagram, a powerful sacred symbol. No matter what your beliefs, paying attention to the forces of nature can bring a greater sense of spirituality and calm to your life, which is equally true of the craft of macramé, which like all handicrafts has proven benefits for wellbeing. This unique and beautiful book celebrates each of the Earth's sacred elements with projects that even beginners to macramé can tackle with ease. In nature, each element has its own specific properties, colours and stones associated with it, which these projects

incorporate to dramatic effect. The 20 projects include dreamcatchers, wall hangings, home accessories and jewellery, which all draw their inspiration from nature and the elements. Many of the projects have crystals incorporated into them, for the good vibrations and healing energy they bring. You'll also learn how to dip-dye macrame for wonderful ombre effects and work with a variety of different coloured cords to bring beauty and interest to your pieces. Make a tree of life hoop to connect with the earth, a dreamcatcher to protect you during sleep, a hanging fruit bowl to feed and nourish you, and a plant hanger to purify your air. Make a necklace to bring out your inner goddess, a crystal suncatcher to capture your fire, or some coasters for your altar candles to sit on. With 20 projects to choose from you will find a whole host of ways to enjoy macramé in a new intentional, spiritual light. Author Rebecca Millar is best known as the creator of Vanir Creations, who has amassed a huge online following for her dreamy macramé hoops and moon catchers. Entirely self-taught, Rebecca now generously shares her secrets in this book, which demystifies the craft with simple explanations of the knots and techniques required.

[Dream Catchers](#) 2014-01-09 Cath Oberholtzer An investigation into the symbol of Native heritage. In Ojibwe (or Chippewa in the United States) culture a dream catcher is a hand-crafted willow hoop with woven netting that is decorated with sacred and personal items such as feathers and beads. The Native American tradition of making dream catchers--hoops hung by the Ojibwe on their children's cradleboards to "catch" bad dreams--is rich in history and tradition. Although the exact genesis of this intriguing artifact is unknown, legend has it that a medicine woman forms a circle from a willow branch and, with sinew, borrows the pattern from a spider, weaves a web, and hangs it over the bed of a sick child who recovers by morning. In some versions dream catchers catch good dreams and let bad ones through, while others catch bad dreams and let good dreams through. This legend accompanies dream catchers offered for sale across North America and beyond. These themes, among others, are carried throughout this book which explores the appropriation of dream catchers by Native Americans of different nations, as well as the New Age movement. Dream Catchers also discusses the blending of two religious philosophies whereby Native and Christian icons are mixed. More than 40 color photographs feature contemporary dream catchers and artifacts with informative captions that identify and comment on the different patterns, their significance and history. Dream Catchers features the work of Native artist Nick Huard who creates dream catchers in his studio in Kahnawake outside of Montreal.
