1992-02-27 Charles Alderson "Counter Responsibility for planning language teaching programs now carries with it a strong element of accountability. Evaluation of the whole process of course design, development, and implementation is therefore a necessary area of activity for course designers, language planners, and researchers. This book brings together accounts of recent work in this increasingly important field and will be a valuable resource both for those already engaged in evaluation and for those in training. Part One presents a review of the literature, covering past developments in the wider field of educational evaluation, as well as specifically in second language education. Part Two contains a series of eight original case-studies, written by scholars involved in evaluations in widely divergent settings. The focus in each case is on how the evaluator addresses the difficulties central to each study, and the findings are also included. The final Part Three provides practical guidance for evaluators, offering suggestions about how to set up and carry out evaluations in any given setting."--Publisher's website.

2011-02-15 Lindsey Davis DEATH LIES BEYOND THE RIVER RHINE AD 71, Germania Libera: dark dripping forests, inhabited by bloodthirsty barbarians and legendary wild beasts, a furious prophetess who terrorises Rome, and the ghostly spirits of slaughtered Roman legionaries. Enter Marcus Didius Falco, an Imperial agent on a special mission: to find the absconding commander of a legion whose loyalty is suspect. Easier said than done, thinks Marcus, as he makes his uneasy way down the Rhenus, trying to forget that back in sunny Rome his girlfriend Helena Justina is being hotly pursued by Titus Caesar. His mood is not improved when he discovers his only allies are a woefully inadequate bunch of recruits, their embittered centurion, a rogue dog, and its innocent young master; just the right kind of support for an agent unwillingly trying to tame the Celtic hordes. . . \_\_\_\_\_ Praise of Lindsey Davis: 'Her most ambitious to date. . .
