Lufta shqiptaro--turks në shekullin XV 1967 Koço Bozhor

Amarna Diplomacy 2002-10-23 Raymond Cohen Published in 1992, William L. Moran's definitive English translation, The Amarna Letters, raised as many questions as it answered. How did Pharaoh run his empire? Why did the god-king consent to deal with his fellow, mortal monarchs as equals? Indeed, why did kings engage in diplomacy at all? How did the great powers maintain international peace and order? In Amarna

Diplomacy, Raymond Cohen and Raymond Westbrook have brought together a team of specialists, both social scientists and ancient historians, to explore the world of ancient Near Eastern statecraft portrayed in the letters. Subjects discussed include Egyptian imperial and foreign policy, international law and trade, geopolitics and decision making, intelligence, and diplomacy. This book will be of interest to scholars not only of the ancient Near East and the Bible but also of international relations and diplomatic studies. Contributors are Pinhas Artzi, Kevin Avruch, Geoffrey Berridge, Betsy M. Bryan, Raymond Cohen, Steven R. David, Daniel Druckman, Serdar Güner, Alan James, Christer Jönsson, Mario Liverani, Samuel A. Meier, William J. Murnane, Nadav Na'aman, Rodolfo Ragonieri, Raymond Westbrook, and Carlo Zaccagnini.

Muslim Contributions to World Civilization 2005-01-01 M. Basheer Ahmed The brilliant contributions of Islam to science, art, and culture, are a timeless and precious heritage, which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely if at all acknowledged in formal education, and today their identity, origins and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences, medicine, legal and political theories and practices, economic and financial concepts, models, and institutions, etc.

The Courtiers of Civilization 2013-09-26 Sasson Sofer Comprehensive study of the diplomat and the diplomatic mission in Western civilization. The professional diplomat frequently takes a back seat in the public imagination to such figures as the great heads of state and leading military figures. In *The Courtiers of Civilization*, Sasson Sofer aims to restore the importance and reputation of the diplomat in Western civilization. Drawing on an exhaustive reading of the vast literature on diplomacy, from the late Renaissance forward, he fashions an engaging portrait of the diplomat's milieu and lifestyle, his place in diplomatic rituals, and his role in international dialogue. Blending historical evidence, sociological analysis, and political thought, Sofer explores the vocational predicament faced by the diplomat, who must play many roles, including negotiator, honorable spy, horse trader, appeaser, and bureaucrat, while at the same time maneuvering in the world of rulers and warriors. Ultimately, the diplomat is a symbol of peace and a custodian of the virtues and norms of a civilized and functional international society—in sum a “courtier of civilization.” Sasson Sofer is Professor of International Relations at the Hebrew University of Jerusalem. His books include *Zionism and the Foundations of Israeli Diplomacy* and *Peacemaking in a Divided Society: Israel After Rabin*.

The Family Structure in Islam 1977 Ḥammūdah ‘Abd al-‘Āṭī

The Illyrians 1996-01-09 John Wilkes For more than a thousand years before the arrival of the Slavs in the sixth century AD, the lands between the Adriatic and the river Danube, now Yugoslavia and Albania, were the home of the peoples known to the ancient world as Illyrians. This book, now available in paperback, draws upon the considerable archaeological evidence that has become available since the Second World War to provide an account of the origins, culture, history and legacy of the Illyrians. John Wilkes describes the geography of Illyria and surveys the region in the prehistoric, Greek, Roman and medieval periods. He discusses Illyrian art, material, culture, religion and customs. A chapter examines the Illyrian language, of which little trace survives, and its connection with other Indo-European languages. Professor Wilkes also scrutinizes the linguistic evidence for the Illyrians' relatedness to other peoples - Thracian, Italic, Greek and Celtic. He concludes with a discussion of a possible survival of an Illyrian native culture in the Roman and Byzantine periods.

Ancient Philosophy: A Very Short Introduction 2000-10-12 Julia Annas The tradition of ancient philosophy is a long, rich and varied one, in which a constant note is that of discussion and argument. This book introduces readers to some ancient debates to engage with the ancient developments of some themes. Getting away from the presentation of ancient philosophy as a succession of Great Thinkers, the book gives readers a sense of the freshness and liveliness of ancient philosophy, and of its wide variety of themes and styles. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

History in the Plural 2012-01-30 Niklas Olsen Reinhart Koselleck (1923–2006) was one of most imposing and influential European intellectual historians in the twentieth century. Constantly probing and transgressing the boundaries of mainstream historical writing, he created numerous highly innovative approaches, absorbing influences from other academic disciplines as represented in the work of philosophers and political thinkers like Hans Georg Gadamer and Carl Schmitt and that of internationally renowned scholars such as Hayden White, Michel Foucault, and Quentin Skinner. An advocate of "grand theory," Koselleck was an inspiration to many scholars and helped move the discipline into new directions (such as conceptual history, theories of historical times and memory) and across disciplinary and national boundaries. He thus achieved a degree of international fame that was unusual for a German historian after 1945. This book not only presents the life and work of a "great thinker" and European intellectual, it also contributes to our understanding of complex theoretical and methodological issues in the cultural sciences and to our knowledge of the history of political, historical, and cultural thought in Germany from the 1950s to the present.

The Trojans & Their Neighbours 2006-05-02 Trevor Bryce A central figure in both classical and ancient near Eastern fields, Trevor Bryce presents the first publication to focus on Troy's neighbours and contemporaries as much as Troy itself. With the help of maps, charts and photographs, he unearths the secrets of this iconic ancient city. Beginning with an account of Troy's involvement in *The Iliad* and the question of the historicity of the Trojan War, Trevor Bryce reveals how the recently discovered Hittite texts illuminate this question which has fascinated scholars and travellers since the Renaissance. Encompassing the very latest research, the city and its inhabitants are placed in historical context - and with its neighbours and contemporaries - to form a complete and vivid view of life within the Trojan walls and beyond from its beginning in c.3000 BC to its decline and obscurity in the Byzantine period. Documented here are the archaeological watershed discoveries from the Victorian era to the present that reveal, through Troy's nine levels, the story of a metropolis punctuated by signs of economic prosperity, natural disaster, public revolt and war.

The Trojan Women of Euripides 2013 Eurípides Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Questions that Sell 2017-12-07 Paul Cherry If you ask the right questions, then you'll get the sale every time. As a salesperson, your product knowledge is extensive but that's not enough. If you fail to ask the right questions - the ones that uncover a customer's real needs - you will never close the deal. Top sales effectiveness expert and author Paul Cherry reveals advanced questioning techniques that will help you sell your products or services based on value to the customer, rather than price, and increase your success rate as a result. In Questions That Sell, Cherry shares material on how to: Discover hidden customer needs and motivations Reinvigorate a stale relationship Soothe anxious buyers Accelerate the decision process Upsell and cross-sell so you no longer leave money on the table Use questions to qualify prospects (without insulting them) And much more Questions That Sell is packed with powerful examples, exercises, and hundreds of sample questions for a wide range of buyer interactions. Success is yours for the asking. Smart questioning will get you there.

The Beginnings of Rome 2012-12-06 Tim Cornell Using the results of archaeological techniques, and examining methodological debates, Tim Cornell provides a lucid and authoritative account of the rise of Rome. The Beginnings of Rome offers insight on major issues such as: Rome's relations with the Etruscans the conflict between patricians and plebeians the causes of Roman imperialism the growth of slave-based economy. Answering the need for raising acute questions and providing an analysis of the many different kinds of archaeological evidence with literary sources, this is the most comprehensive study of the subject available, and is essential reading for students of Roman history.

The Greek World 479-323BC 2013-01-11 Simon Hornblower The main aim of this book is to do justice to all the areas of the Mediterranean world in which Greek culture flourished in the fifth and the fourth centuries BC.

The Ghost Rider 2010-05-20 Ismail Kadare An old woman is awoken in the dead of night by knocks at her front door. The woman opens it to find her daughter, Doruntine, standing there alone in the darkness. She has been brought home from a distant land by a mysterious rider she claims is her brother Konstandin. But unbeknownst to her, Konstandin has been dead for years. What follows is chain of events which plunges a medieval village into fear and mistrust. Who is the ghost rider?
