American Rust 2009-04-06 Philipp Meyer Set in a beautiful but dying Pennsylvania steel town, American Rust is a novel of the lost American dream and the desperation that arises from its loss. It is the story of two young men bound to the town by family, responsibility, inertia and the beauty around them who dream of a future beyond the factories, abandoned homes, and the polluted river. Isaac is the smartest kid in town, left behind to care for his sick father after his mother commits suicide and his sister Lee moves away. Now Isaac wants out too. Not even his best friend, Billy Poe, can stand in his way: broad-shouldered Billy, always ready for a fight, still living in his mother's trailer. Then, on the very day of Isaac's leaving, something happens that changes the friends' fates and tests the loyalties of their friendship and those of their lovers, families, and the town itself. Evoking John Steinbeck's novels of restless lives during the Great Depression, American Rust is an extraordinarily moving novel about the bleak realities that battle our desire for transcendence, and the power of love and friendship to redeem us.

The Penguin Guide to Adolescent Behaviour 1999 Sumati Ghosh The wonder years of adolescence are a crucial time in an individual's life: on the one hand, they are full of the joys of self-discovery, while on the other, they can be replete with feelings of isolation and rebellion. For the concerned parents of teenagers, it is a time of great confusion, as they feel threatened by the communication breakdown that is the most immediate manifestation of a so-called generation gap. They feel out of touch with things that are going on in the adolescent's world. Above all, they are in constant fear of their children experimenting with drugs, alcohol and sex. In this book, noted psychologist Sumati Ghosh offers some invaluable tips to parents who wish to genuinely understand and help their children through the upheavals of adolescence. Beginning with the physiological effects, she goes on to discuss issues that are central to a teenager's life, like social pressures, attitudes and relationships. Through a number of illustrative case studies, she discusses the typical problems a young person faces, and indicates how these can be tackled most effectively. Finally, she offers a troubleshooting guide for the parent, providing a checklist of the danger signals that indicate maladjustment in a teenager. Full of information and insights into the patterns of adolescent behaviour, this is a much-needed and necessary companion to positive parenting in our times.
