2018-09-25 Brice Matthieussent The work of a novelist and translator collide in this visionary and hilarious debut from acclaimed French writer Brice Matthieussent. Revenge of the Translator follows Trad, who is translating a mysterious author's book, Translator's Revenge, from English to French. The book opens as a series of footnotes from Trad, as he justifies changes he makes. As the novel progresses, Trad begins to take over the writing, methodically breaking down the work of the original writer and changing the course of the text. The lines between reality and fiction start to blur as Trad's world overlaps with the characters in Translator's Revenge, who seem to grow more and more independent of Trad's increasingly deranged struggle to control the plot. Revenge of the Translator is a brilliant, rule-defying exploration of literature, the act of writing and translating, and the often complicated relationship between authors and their translators.

2021-02-05 Giorgio Mills THE FIRST BOOK THAT TEACHES THE BASIC ITALIAN WORDS TO THE LITTLE ONES WITHOUT LOOKING LIKE A SCHOOL BOOK. This book teaches children the same things as a grammar book, but through fun stories to read. This is because, for a child, there's no better way to learn a language than by listening to stories. Think about it: Stories are engaging, compelling, keep the children's attention high, and are able to teach important things without the children even noticing it. Conversely, grammar books (those filled with infinite lists of words, verbs, idioms, and so on) tend to make children RUN AWAY. They're so bored... Imagine that stories are the pole of the magnet that attracts children, while grammar books are the opposite one that pushes them away. So, what will children learn by reading to these short, fun, and relaxing stories? Let me break this down for you: - Letters of the Alphabet - Numbers - The Days of the Week - Months of the Year - Objects in the House - Clothing - Food - Emotions - Animals Children won't even notice they're learning all of that! The little ones can read to the stories during the day while playing, or before going to sleep as bedtime stories (we know that listening to something before

falling asleep causes it to be imprinted in our memory). So, whenever children will listen to these stories... ..Let them become bilingual effortlessly - because once they grow up it becomes much more difficult. Order Now

2014-03-11 Benny Lewis Meet the man who makes the mission of learning any language possible! The all-you-need guide to learning a language.

2016-12-17 Kieran Ball The best way to learn to speak a foreign language is to start using it straight away. This is exactly what you will be doing with 3 Minute Italian. With this book, you will learn useful words and phrases that will get you speaking from the very first lesson. You will learn quickly how to form your own sentences without feeling like you're never going to use what you learn. I wrote the 3 Minute Italian methodology after trying lots of different courses, books and CDs. I noticed that most Italian courses start out with a long list of pronunciation rules using weird symbols that you won't understand unless you've studied phonetics. I also noticed that a lot of Italian courses fill their first few lessons with pages and pages of rules for the language: how to pluralise nouns, how to recognise the gender of a noun, how to use the definite, indefinite or partitive articles! Whilst this information will become useful eventually, for the complete beginner it can be extremely confusing and very often overwhelming, especially when baffling grammatical terminology is used. This is what leads to most students giving up. With 3 Minute Italian, what I have done is put the most useful things first. You will learn words and phrases that will allow you to speak straight away, and you will get an instant feeling of success from the very first lesson. Furthermore, I have made sure that I explain everything in a way that assumes you know nothing about language learning. I don't use any tricky terminology and I don't give you an endless list of rules; we learn as we go along, adding small bits of information here and there and practising until you can use it confidently. Each time you learn a new word, I show you exactly how to say it with a small pronunciation guide underneath it. And you don't need to worry about remembering the words, either; the way the course is set out means that you will automatically internalise new vocabulary without even trying. The methodology behind this book is the same methodology I use in my classes and online courses, and the results my students have had are exciting and thrill me just as much as them! People who have spent years unsuccessfully studying Italian have tried this book or one of my courses and have been amazed at how much they've learnt and understood in just the first lesson. Here are some of their reviews: "Excellent! He really understands teaching. This course breaks through a major barrier to learning foreign languages." NIALL COLLINS "This is fantastic. Everything you learn just stays in your head." YUVRAJ VASWANI "The course was just as the instructor promised; it flowed so easily from beginning to end, and I was surprised by how much I absorbed. Thank you for making me feel that I can actually learn this beautiful language." LOU CHARON "The teacher is clear and concise. He structures the delivery of the material in a very effective way, which aids recall greatly, and he presents the material in an engaging way. My rate of learning is accelerating fast." SAM DOYLE "I love how short but utterly effective each chapter is. This method is great for building confidence quickly, learning the basics and gaining momentum. I'd definitely like to continue to learn with this teacher. Absolutely no boredom or strain whatsoever!" HAPPY DEE "Excellent course. The step-by-step instruction in small increments is very effective, as is the repetition throughout the course, and the translation practice. Highly recommend!!!" MOLLIE DISHAL "This method of teaching is amazing. This person has a teaching gift and the lessons are very well structured with clear content. Everything is explained very well and this method of teaching is pure genius. Thank you for helping me learn another language!"
