2023-03-02 Jake Winkle Jake Winkle's loose, fresh and spontaneous style of painting is very popular. His paintings are full of light and movement and a key feature of his technique is that he doesn't work in the traditional way of light to dark but by placing the darks first. In Light and Movement in Watercolour, his first book, he demonstrates how to paint watercolours in a loose, direct way by step-by-step demonstrations and practical projects. Watercolours are often spoiled by a desire to be entirely truthful to the subject matter, which can lead to a painting that is overworked and tight. Jake's loose approach avoids those problems. He looks at subject simplification and shows how to focus on shapes rather than objects and, by painting what you see and not what you know, demonstrates how to capture the essence of the scene with freshness and clarity. The main topics in

this book are: Understanding Watercolour; Building Confidence; What to Paint; Shapes, Tones and Colours; Dark to Light and Freshness and Clarity. Jake considers each topic in detail and shows the reader how to create paintings that glow with life, interest and spontaneity.

2016-02-29 Michael Reardon "No other medium is as magical and enjoyable as watercolor." So says artist and author Michael Reardon. In *Watercolor Techniques: Painting Light and Color in Landscapes and Cityscapes*, Reardon covers it all, from answers to beginners' most vexing problems (What is the proper ratio of pigment and water? How do I lay down an even wash? Why do my paintings look so washed out?) to understanding the trifecta of perspective, value, and color. He shows how to paint whites that sparkle and shadows that glow and how to conjure the atmosphere of a particular place and time. Painters of all skill levels will see--and feel--the difference in their work. • Packed with expert advice for infusing scenes with light and color • Includes special tips and techniques for painting architectural subjects • Illustrated with inspiring paintings of scenes from around the world • 8 start-to-finish demonstrations show key concepts in action "Light, as it glances off a facade, glimmers off the water or gleams off polished marble, is always inspiring. Color, with its infinite array of hues, is always irresistible. Searching for ways to make them harmonize and tell a story can last a lifetime."

1999 Rachel Rubin Wolf Shows how light can bring drama, emotion, and power to your painting.

Hazel stresses how important it is to understand the characteristics of the medium in order to exploit it to the full. She encourages the reader to explore the properties of watercolour and to be unafraid of strength of colour and brushstroke. Hazel shows through demonstration and projects that tone is king in watercolour and illustrates how to paint light with the use of shade. Armed with this understanding she demonstrates that watercolour is not such an unforgiving medium after all: accidents and mistakes can be disguised, overridden and corrected. *The Essence of Watercolour* is a culmination of many years of Hazel's teaching and demonstrating, in which she offers inspirational insights into the secrets of watercolour painting and encourages artists to take their art to the next level.

Author James Gurney draws on his experience as a plain-air painter and science illustrator to share a wealth of information about the realist painter's most fundamental tools: color and light. He bridges the gap between abstract theory and practical knowledge for traditional and digital artists of all levels of experience.

2008-06-15 Nicholas Verrall Often seen as dark and gloomy, oils can, in fact, be used to create colourful and light paintings that are wonderfully expressive. One significant characteristic of oil paint is its richness and depth of colour, something that is of particular interest to Nicholas Verrall. Immediately striking in all his pictures is the skilful way he handles colour to interpret the special qualities of light and mood found in a certain moment in time. In this book he discusses his working methods and the importance of colour, at the same time placing these issues within the general context of painting in oils, with all that this has to offer. 2003 Trevor Chamberlain Trevor Chamberlain's watercolour paintings are a celebration of light and atmosphere, and his skill in painting directly from nature to capture the mood of his subjects has earned him an enviable reputation among both amateur and professional artists. Here Trevor Chamberlain offers a fascinating glimpse over his shoulder as he describes his approach to interpreting the effects of light and weather using the limited watercolourist's palette. Mood in nature is his constant source of inspiration and his favoured subjects are marine, town and landscape. He particularly enjoys capturing the transient aspects of the English weather but he has also travelled extensively and enjoys the challenge of confronting the unfamiliar light and surroundings in exotic locations such as Egypt, Iran and India. An artist of the plein air tradition, he always paints directly from nature at first hand, an approach which he enthusiastically recommends to readers of this book.

2012 John Singer Sargent John Singer Sargents approach to watercolour was unconventional. Disregarding late-nineteenth-century aesthetic standards that called for carefully delineated and composed landscapes filled with transparent washes, his confidently bold, dense strokes and loosely defined forms startled critics and fellow practitioners alike. One reviewer in England, where Sargent spent much of his adult life, called his work swagger watercolours. For Sargent, however, the watercolours were not so much about swagger as about a new way of thinking. In watercolour as opposed to oils his vision became more personal and his works more interconnected. Presenting nearly 100 works of art, this book is the first major publication of Sargents watercolours in twenty years. Each chapter highlights a different subject or theme that attracted the artists attention during his travels through Europe and the Middle East: sunlight on stone, figures reclining on grass, patterns of light and shadow. Insightful essays by the worlds leading experts enhance this book and introduce readers to the full sweep of Sargents accomplishments in the medium, in works that delight the eye as well as challenge our understanding of this prodigiously gifted artist.
