2015-02-03 Fossungu, Peter Ateh-Afac According to Fossungu, we need healthy competition for progress. Competition that is not geared toward progress is negative competition. No competition or the absence of self-help is negative competition. With factories competing healthily, consumers have a variety of quality goods and services from which to choose. The entire community benefits when people in any grouping are competing

positively; thus making the rules of competition graphical. The central focus of this book is the extent to which Canadian regulations apply without discrimination to all of Canada and to everyone, individuals and corporations alike. A swift answer is affirmative. But is that really it? The book is also about voluntary slavery, which is worse than forced enslavement. Drawing on Ignorance Theory, the book argues that the worst thing that can happen to anyone is to be ignorant of one's ignorance. He who does not know what he does not know will never know. Voluntary African slaves generally employ 'One Has No Choice' (On n'a pas le choix) to cloak their having chosen not to secure their rights. Fossungu demonstrates why he considers this an escapist way of shying away from doing the normal thing, thus giving the dictator or oppressor reason to dictate and oppress with impunity. This is Fossungu at his provocative and controversial best.

2017-08-26 Mark Satin In print for the first time since 1971, *Manual for Draft-Age Immigrants to Canada* has once again become relevant in a time of major political upheaval in the United States of America. First published in 1968 by House of Anansi Press, the *Manual for Draft-Age Immigrants to Canada* was a handbook for Americans who refused to serve as draftees in the Vietnam War and were considering immigrating to Canada. Conceived as a practical guide with information on the process, the *Manual* also features information on aspects of Canadian society, touching on topics like history, politics, culture, geography and climate, jobs, housing, and universities. The *Manual* went through several editions from 1968-71. Today, as Americans are taking up the discussion of immigration to Canada once again, it is an invaluable record of a moment in our recent history.

2023-11-22 Shira Sebban In 2016, a newspaper published an article about four childrendue to be sent to an orphanage after their parents were punished for attempting to flee Vietnam. Among 46 asylum seekers trying to reach Australia by boat, they were intercepted by the Australian navy and returned to Vietnam, where intense retribution awaited. This newspaper article sparked a unifying response in people across the globe. This work tells the story of volunteer advocates who banded together to help a group of Vietnamese refugees on their journey to freedom. Highlighting the courage of "ordinary" people--and with tales of human rights, communal living, reuniting families and their eventual resettlement in Canada--this book paints a vivid picture of Vietnamese families' struggle for liberty in the 21st century.

2011-01-17 Timothy J. Stanley In 1922-23, Chinese students in Victoria, British Columbia, went on strike to protest a school board's attempt to impose segregation. Their resistance was unexpected and runs against the grain of mainstream accounts of Asian exclusion, which tend to ignore the agency of the excluded. In *Contesting White Supremacy*, Timothy Stanley combines Chinese sources and perspectives with an innovative theory of racism and anti-racism to explain the strike and construct an alternative reading of racism in British Columbia. His work demonstrates that education was an arena in which white supremacy confronted Chinese nationalist schooling and where parents and students contested racism by constructing a new category ♦ Chinese Canadian ♦ to define their identity.

2016-04-15 Amy Lind Since the establishment of the North American Free Trade Agreement (NAFTA) tensions concerning immigration trends and policies, which continued to escalate at the turn of the millennium resulted in revised national security policies in Mexico, Canada, and the United States. These tensions have catalyzed the three governments to rethink their political and economic agendas. While national feminist scholarship in and on these respective countries continue to predominate, since NAFTA, there has been increasing feminist inquiry in a North American regional frame. Less has been done to understand challenges of the hegemonies of nation, region, and empire in this context and to adequately understand the meaning of (im)mobility in people's lives as well as the (im)mobilities of social theories and movements like feminism. Drawing from current feminist scholarship on intimacy and political economy and using three main frameworks: Fortressing Writs/Exclusionary Rights, Mobile Bodies/Immobile Citizenships, and Bordered/Borderland Identities, a handpicked group of established and rising feminist scholars methodically

examine how the production of feminist knowledge has occurred in this region. The economic, racial, gender and sexual normativities that have emerged and/or been reconstituted in neoliberal and securitized North America further reveal the depth of regional and global restructuring.

2001 Andrée Côté Sponsorship is a procedure that allows people to immigrate to Canada in order to join their families without having to satisfy the usual selection criteria. This report examines the impact of sponsorship on immigrant women using documentary research and qualitative research based on life stories. Part 1 describes that methodology and presents a brief history of immigration & sponsorship policies in Canada. Part 2 presents & discusses life stories revealed in in-depth interviews with 16 Francophone immigrant women in Ontario who were sponsored by their husbands. The stories reveal the magnitude & complexity of the problems they face as immigrant women and how conjugal sponsorship contributes to their disadvantaged status. Part 3 reviews the rights of immigrant women under the current sponsorship regime and the impact of spousal sponsorship on those rights. The final part begins by discussing reforms made in other jurisdictions in order to find promising avenues for reform, then examines recent federal proposals in its January 1999 policy statement on new directions for immigration policy & legislation. Two policy reform options are then considered: improving the current sponsorship regime according to the needs of women sponsored by their husbands; and eliminating mandatory sponsorship in cases of family reunification between spouses. The appendix includes an interview guide.

1998 Court Robinson For half a century (ever since the Japanese invasion of 1942), much of Southeast Asia has been racked by war. In the last 20 years alone, some three million people fled their homes in Vietnam, Laos and Cambodia. This book is their story. It is also the story of the international community's response. Spearheading this was the United Nations agency responsible, UNHCR. It pioneered innovations like the Orderly Departure Programme, anti-piracy and rescue-at-sea efforts, and later on, ambitious reintegration projects for returnees. Today the camps in Southeast Asia are closed. Half a million people have returned home. Over two million have started new lives in the United States, Canada, Australia and France. This compelling book is the history of this modern exodus. It also takes stock and poses important questions. How did the flight of refugees and international response evolve? How do we measure the achievements and the failures of that international effort? What has been the legacy in Asia itself? And what lessons can be drawn for use in other refugee situations around the world?

2021-04-07 Sonia Cancian Following Antonietta and Loris's first kiss in the shadows of the Italian Alps barely a year after the end of the Second World War, the couple was divided by a distance far greater than could ever have been imagined. With Antonietta's family moving to Montreal, migration entered the couple's intimate worlds, stretching the distance between them from the two hundred kilometres separating Ampezzo and Venice to the ocean between Montreal and Venice. Throughout their transatlantic separation, the young lovers fervidly wrote each other until they were reunited in Canada in 1949. *With Your Words in My Hands* tells a story about love and migration as written and read, idealized and imagined, through daily correspondence. Sonia Cancian recovers a rare complete epistolary record of an immigrant experience defined by love and sustained in writing, translating the letters with deftness and an ear for the immediacy of emotion and longing they embody. Cancian gives context to these exchanges dating from the beginning of the largest migration movement from Italy to Canada, showing how love, frustration, fear, sadness, and empathy were palpable elements that inflected the quotidian - bureaucratic processes, employment, family life - and defined immigrant experience. For the countless couples whose love is fragmented by separation but woven together with envelopes and stamps, or onscreen in today's instant messaging, these letters remind us how the experience of distance and proximity, absence and presence, can be reconfigured within the world of intimate correspondence.

2000-07-31 Ravi Pendakur First, Canada's primary source for immigrants has shifted dramatically from the United Kingdom and Europe to countries outside Europe. Second there has been a remarkable transformation in the nature of work: Canada's economy has changed from relying on resource extraction to an emphasis on manufacturing, and presently is emerging as post-industrial and knowledge-based. Pendakur combines an analysis of parliamentary debates on immigration issues with an evaluation of the regulatory and policy changes that resulted from these discussions and an analysis of how the work of immigrants changed over a five-decade. He then provides both a political and quantitative analysis by looking at issues that affect not only immigrants but minorities born in Canada in order to assess the degree to which labour market discrimination exists and whether employment equity programs are needed.

2022-06-13 Raymond Ngaiza Have you ever felt like life is getting away from you? We all know what it is to sometimes feel like mere passengers along for the ride, victims of circumstances outside of our control. In this striking work of self-help literature, author Raymond Ngaiza takes up arms against this familiar feeling, showing the myriad ways we determine the course of our lives through the choices we make, whether they be personal or professional, big or small. Inspired by his own experiences of career and lifestyle changes in leaving his training for priesthood, going back to school, taking up writing, and becoming a husband and father, Ngaiza draws on a fascinating array of religious and secular texts—as well as politics, pop culture, and his own life—to show us how we can make the difference in our lives and in the world. Careful to examine all sorts of important dynamics that may come into play in decision-making—from being met with a lack of choice or its overwhelming abundance to the methods by which we actually execute our decisions, to the issues that may follow our choice-making, such as proverbial buyer's remorse—Choice is a powerful wake-up call to readers everywhere, reminding us that we can and should become masters of our destinies.

2011-11-01 Randy Lippert Drawing on theories of governmentality, Lippert traces the emergence of sanctuary practice to a shift in responsibility for refugees and immigrants from the state to churches and communities. Here sanctuary practices and spaces are shaped by a form of pastoral power that targets needs and operates through sacrifice, and by a sovereign power that is exceptional, territorial, and spectacular. Correspondingly, law plays a complex role in sanctuary, appearing variously as a form of oppression, a game, and a source of majestic authority that overshadows the state. A thorough and original account of contemporary sanctuary practice, this book tackles theoretical and methodological questions in governmentality and socio-legal studies.

2010-05-01 Sonia Cancian Families, Lovers, and their Letters takes us into the passionate hearts and minds of ordinary people caught in the heartbreak of transatlantic migration. It examines the experiences of Italian migrants to Canada and their loved ones left behind in Italy following the Second World War, when the largest migration of Italians to Canada took place. In a micro-analysis of 400 private letters, including three collections that incorporate letters from both sides of the Atlantic, Sonia Cancian provides new evidence on the bidirectional flow of communication during migration. She analyzes how kinship networks functioned as a means of support and control through the flow of news, objects, and persons; how gender roles in productive and reproductive spheres were reinforced as a means of coping with separation; and how the emotional impact of both temporary and permanent separation was expressed during the migration process. Cancian also examines the love letter as a specific form of epistolary exchange, a first in Italian immigrant historiography, revealing the powerful effect that romantic love had on the migration experience. 2019

2002 Diane Francis In this enlightening book, Diane Francis looks at immigration in Canada from an economic perspective. Tracing the country's experience with immigration from the nineteenth century through the installation of the point system in the 1960s to the adoption of Bill C-11, 'The New Immigration Act of 2002,' she shows how originally sensible policies have developed unintended consequences that threaten the economic and social well-being of our country. In particular, lax procedures and a lack of clear thinking and economic vision on the part of both conservative and

liberal governments have turned immigration policy away from the laudable goal of helping to increase the living standards of Canadians and newcomers alike. Herself an immigrant, the author is sensitive to the vital role that immigrants play in weaving the fabric of the nation. But the statistics she has collected tell a story of declining welfare among the new arrivals and of their insecure place in the new economy. She quotes numerous immigration officials past and present who are as concerned as she is with the current ragged state of the system. After laying out in vivid detail the troubling problems that this system currently generates, she offers eighteen sensible suggestions as to how it should be reformed. This timely book should help fuel a constructive debate on the direction that immigration policy should take in Canada in the twenty-first century. Diane Francis is the editor of *The Financial Post*, a columnist for *Maclean's* magazine, and a business commentator for CFRB and CKNW radio. She is also the author of a number of best-selling books including *Key Porter*, *A Matter of Survival*, *Underground Nation*, *Fighting for Canada* and *Bre-X* 2010

2009 Paul Helmer During the second half of the twentieth century, musical life in Canada flourished as never before, due in large measure to a generation of European émigrés who worked to establish a uniquely Canadian culture of classical music, teaching, playing, and composing "in the key of Canada." Based on years of detailed and extensive interviews with some seventy people, and supplemented by a wide range of archival material, *Growing with Canada* reveals how these men and women came to Canada and the roles they played in developing musical culture here, weaving the larger story of post-war Canadian music performance, production, and education around their testimony. Paul Helmer shows that émigrés were at the centre of the developing musical milieu, particularly in Toronto and Montreal. They were able to overcome the dominating British presence in post-secondary music education and vastly expanded the role music played in universities. They also pioneered the performance and production of opera in Canada. From British Columbia to Newfoundland, they served as educators, teachers, and administrators as well as outstanding performers, conductors, composers, music historians, radio and television producers, and benefactors. *Growing with Canada* provides a personal and lively perspective on one of the most significant eras of musical development in Canadian history. Canadian musicians and audiences continue to benefit from the impressive achievements of the individuals chronicled in this book.

2016-09-15T00:00:00Z Christopher Stuart Taylor Canadians are proud of their multicultural image both at home and abroad. But that image isn't grounded in historical facts. As recently as the 1960s, the Canadian government enforced discriminatory, anti-Black immigration policies, designed to restrict and prohibit the entry of Black Barbadians and Black West Indians. The Canadian state capitalized on the public's fear of the "Black unknown" and racist stereotypes to justify their exclusion. In *Flying Fish in the Great White North*, Christopher Stuart Taylor utilizes the intersectionality of race, gender and class to challenge the perception that Blacks were simply victims of racist and discriminatory Canadian and international immigration policies by emphasizing the agency and educational capital of Black Barbadian emigrants during this period. In fact, many Barbadians were middle to upper class and were well educated, and many, particularly women, found autonomous agency and challenged the very Canadian immigration policies designed to exclude them.

1988 Freda Hawkins *Canada and Immigration* is a portrait of Canadian immigration since the end of the Second World War. It is an important record and analysis of immigration policies, laws, and methods of management during this period, as well as an account of the attitudes and beliefs of the politicians and officials who developed and managed this area of public policy. It is the first study to consider all aspects of Canadian immigration

and pays as much attention to management and the problems facing immigration managers as it does to immigration policy and policy makers.

2013-02-08 George Uzoma Ukagba Frequently overlooked in the search of knowing and acting wisely are some important philosophical and cultural ideas and questions. The *Kpim of Social Order* boldly captures such ideas and questions for awareness through critical thinking. The current volume in the *Kpim Book Series* makes the point that for a systematic analysis and significance of *Social Order* to be attained, we need to ask, What is the *kpim* or central core of *Social Order* of things? Where does the deepest layer, notion, symbolism, reality and application of social order, programs, human rights, institutions, communities, diplomacy, uprising, social asset, social power, policy action, inter-culturalism, global forces and all else lie? How can we reach and understand the innermost part of *Social Order* in the modern world? By gathering articles from seasoned, experienced, and emerged scholars from various backgrounds, the book explores deep-rooted questions touching on African context and related societies. The refreshing perspectives, analyses, deep reflections, vigorous arguments, and representations shown by the essays are distinctive and have been referred to as a comprehensive reader in the season of inquiry, meaning and significance of social order in the contemporary time. This is a book no one should ignore. Students, scholars, researchers, universities, colleges, educationists, institutions, policy makers, governments, legislatures, agencies, labour unions, civil society organizations, occupy movements, religious groups, entrepreneurs and the general public will find this book as an asset and a must read. The *kpim of Social Order* is therefore written out of the critical need to fill the gap for a decisive knowledge society in the modern world.

2014-07-03 ALAN J. YATES "Just a word before I sleep. You will be my eternal guiding stars. Let there be no wasted tears or regrets. They would only damage the so-delicate wings of all those wonderful butterflies." with these last written words, Ida tried to ensure we would continue our family life without her as wife and mother. For her, butterfly wings were the symbol of the almost magic and utterly fragile connections we make among each other as family members and as close friends throughout our lives. Such connections can, she felt, be made, perfected, broken or damaged in so many ways as we navigate perilously throughout our lives. "Les ailes de papillons," she said. They were butterfly wings. She felt those fragile things that we call love and friendship, bonds and trust--shimmering, delicate--hanging by the merest thread.

2006-01-01 Grace Anderson "We are making an interesting break with conventional sociology.... 2012-11-17 Christopher G. Anderson With restrictive immigration policies, increased interdiction, and the detention of asylum seekers, it is clear that Canada's approach to border control has shifted in recent years. Yet such practices are just the latest in a long and complex national history.

Canadian Liberalism and the Politics of Border Control sheds light on the first century of Canada's efforts to control its borders, framing pivotal moments within a long-standing but often overlooked debate over the rights of non-citizens. Anderson provides valuable insights into contemporary liberal-democratic control by demonstrating that today's more restrictive approach reflects traditions deeply embedded within liberal democracies.
