The author discusses the genesis and development of the "king list" tradition, following a tradition over three millennia. **The Gods of Egypt** 2001 Claude Traunecker The Gods of Egypt, first published in France in 1992 and now in its third French edition, is a short, elegant, and highly accessible survey of ancient Egyptian

religion. The clarity and brevity of Claude Traunecker's book make it especially valuable to readers seeking an authoritative introduction to this complex topic. The Cornell edition, the first English translation, is enhanced by 23 illustrations. He then describes the actual and metaphysical worlds inhabited by the Egyptian deities and the role that humans played in the Egyptian universe. *Ptolemaic Philae* 1989 Eleni Vassilika This book examines the Ptolemaic temples of the island of Philae, in Upper Egypt. The temples were modified and extended during the course of the Ptolemaic dynasty and this detailed study presents the first full publication of the architectural development and relief decoration of this site. Separate chapters address the principles of decoration, the architectural development of the site, the attributes of the Pharaoh and deities, the evolution of the human figure in the reliefs and, finally, artisan work methods. A computer facilitated the recording of the 29 variables associated with each of the 824 offering scenes. This approach, adaptable to other sites, allowed the handling of an otherwise unmanageable amount of information. The computer database is printed in full, with tabulated information gathered from it. The 1274 drawings illustrate all the offerings, crowns, clothing and other attributes depicted in the relief decoration at Philae. The plates illustrate the architectural details, the work methods of the artisans and the changing rendering of the human figure during the course of

the Ptolemaic dynasty.

**Death and Salvation in Ancient Egypt** 2005-10-13 Jan Assmann "Human beings," the acclaimed Egyptologist Jan Assmann writes, "are the animals that have to live with the knowledge of their death, and culture is the world they create so they can live with that knowledge." In his new book, Assmann explores images of death and of death rites in ancient Egypt to provide startling new insights into the particular character of the civilization as a whole. Drawing on the unfamiliar genre of the death liturgy, he arrives at a remarkably comprehensive view of the religion of death in ancient Egypt. Assmann describes in detail nine different images of death: death as the body being torn apart, as social isolation, the notion of the court of the dead, the dead body, the mummy, the soul and ancestral spirit of the dead, death as separation and transition, as homecoming, and as secret. Death and Salvation in Ancient Egypt also includes a fascinating discussion of rites that reflect beliefs about death through language and ritual.

**The Pyramid Texts** 1952 Samuel Alfred Browne Mercer The Egyptian pyramid texts, which are the basis of this work, were collected and inscribed on the walls of five royal pyramids at Sakkareh between the years 2350 and 2175 B.C. The present work is the first English translation with commentary.

*The Secret Lore of Egypt* 2001 Erik Hornung The study of Egypt as the fount of all wisdom and stronghold of hermetic lore, already strong in antiquity, Hornung (Egyptology, U. of Basel) calls Egyptosophy. He reviews the various occult traditions and their expression during various eras. The original *Esoterische Agypten* was published by C. H. Beck'sche Verlagsbuchhandlung, Munich, in 1999, and translated by David Lorton, who has also translated Hornung's earlier books for Cornell. Annotation copyrighted by Book News, Inc., Portland, OR.
