**The Little Book of Restorative Justice** 2015-01-27 Howard Zehr Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Undeniable Atrocities 2016 "Since the Mexican government escalated its war on organized crime at the end of 2006, over 150,000 Mexicans have been intentionally murdered. Countless thousands of others have been tortured; no one knows how many have disappeared. Caught between government forces and organized crime cartels, the Mexican people have suffered as atrocities and impunity reign. Based on three years of research, over 100 interviews, and previously unreleased government documents, this report finds a reasonable basis to believe that government forces and members of criminal cartels have perpetrated crimes against humanity in Mexico. The report comprehensively examines why there has been so little justice for atrocity crimes, and finds the main answers in political obstruction. Given the lack of political will to end impunity, new approaches must be taken. The report argues for a series of institutional changes, most importantly the creation of an internationalized investigative body, based inside Mexico, with powers to independently investigate and prosecute atrocity crimes."--Page 4 of cover.

**Youth Offending and Restorative Justice** 2013-05-13 Adam Crawford This book provides an empirically grounded, theoretically informed account of recent changes to the youth justice system in England and Wales, focusing on the introduction of elements of restorative justice into the heart of the criminal justice system, and the implementation of referral orders and youth offender panels. Taken together, this amounts to the most radical overhaul of the youth justice system in the last half century, fundamentally changing the underlying values of the system away from an 'exclusionary punitive justice' and towards an 'inclusionary restorative justice'. The book explores the implications of these changes by using the lens of a detailed study of the implementation of referral orders and youth offender panels to explore wider issues about youth justice policy and the integration of restorative justice principles. It draws upon the findings of an in-depth study of the pilots established prior to the national rollout of referral orders in April 2002. The book will be essential reading not only for those involved in the task of implementing the new youth justice, but others with an interest in the criminal justice system and in restorative justice who need to know about the far reaching reforms to the youth justice system and their impact.

**Facing Codependence** 2011-11-22 Pia Mellody Pia Mellody creates a framework for identifying codependent thinking, emotions and behaviour and provides an effective approach to recovery. Mellody sets forth five primary adult symptoms of this crippling condition, then traces their origin to emotional, spiritual, intellectual, physical and sexual abuses that occur in childhood. Central to Mellody's approach is the concept that the codependent adult's injured inner child needs healing. Recovery from codependence, therefore, involves clearing up the toxic emotions left over from these painful childhood experiences.

The State of the World's Children 2005 2005-12-31 United Nations Children's Fund (UNICEF) The 2005 edition of UNICEF's State of the World's Children focuses on how poverty, conflict and HIV/AIDS threaten the idea of childhood as a period of time for children to grow and develop to their full potential. In several regions and countries, some of the gains made since the adoption of the Convention on the rights of the child in 1989 are in danger of reversal. The rights of over 1 billion children are violated by being severely underserved of one or more of the basic services required to survive, grow and develop.

Feld Written by a leading scholar of juvenile justice, this book examines the social and legal changes that have transformed the juvenile court in the last three decades from a nominally rehabilitative welfare agency into a scaled-down criminal court for young offenders. It explores the complex relationship between race and youth crime to explain both the Supreme Court decisions to provide delinquents with procedural justice and the more recent political impetus to "get tough" on young offenders. This provocative book will be necessary reading for criminal and juvenile justice scholars, sociologists, legislators, and juvenile justice personnel.
