The Open Organization

2016-02-17 Philip A. Foster
What is it that makes certain organizations more successful? Organization design and its management has long been the fixation of leaders and scholars alike. Cracking the code to the perfect organizational ecosystem appears to be the dividing line between great success and mediocrity. The 21st century launched with great volatility and a level of cultural and global diversity unknown by previous generations. This instability demands new approaches and methods for the delivery of products, services and ideas. We can no longer afford to run organizations with 19th and 20th century ideas. The pressures of shifting demographics, culture and technology require new approaches to organizational leadership and structures. Welcome to the era of the Open

Organization. The Open Organization: A New Era of Leadership and Organizational Development, by Dr Philip A Foster, is divided into three distinct parts; the first explores the foundations of an Open Organization, covering the evolution of leadership and organization theories from the beginning of known time through to the 21st century; the second discusses the elements of such an organization, presenting the ecosystem of an Open System with its structure, culture and decision-making functions, while the third examines the 21st century organization, questioning 'who should go Open' and reviewing the reality of creating this type of organization, understanding control and resistance and addressing the matter of bringing about change.

Sherine Tadros The deeply moving memoir of an award-winning war correspondent turned activist — and her rousing defence of human rights in times of resurgent authoritarianism. As a broadcast journalist for Sky News and Al Jazeera, Sherine Tadros was trained to tell only the facts, as dispassionately as possible. But how can you remain neutral when reporting from war zones, or witnessing brutal state repression? For twenty-six years, Tadros grew up in the quiet surroundings of her family's London home, and yet injustice was something her Egyptian immigrant parents could never shelter her from. From her first journalistic assignment trapped inside a war zone in the Gaza Strip, to covering the Arab uprisings that changed the course of history, Tadros searched for ways to make a difference in people's lives. But it wasn't

until her fiancé left her on their wedding day, and her life fell apart, that she found the courage to find her true purpose. It was the beginning of a journey leading to her current work for Amnesty International at the United Nations, where she lobbies governments to ensure that human rights are protected around the world. With the compassion and verve of a clear-sighted campaigner and a natural storyteller, Tadros shares her remarkable journey from witnessing injustice to fighting it head-on in the corridors of power.
