How to Do Nothing 2019-04-23 Jenny Odell \*\* A New York Times Bestseller \*\* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY: Time • The New Yorker • NPR • GQ • Elle • Vulture • Fortune • Boing Boing • The Irish Times • The New York Public Library • The Brooklyn Public Library "A complex, smart and ambitious book that at first reads like a self-help manual, then blossoms into a wide-ranging political manifesto."—Jonah Engel Bromwich, The New York Times Book Review One of President Barack Obama's "Favorite Books of 2019" Porchlight's Personal Development & Human Behavior Book of the Year In a world where addictive technology is designed to buy and sell our attention, and our value is determined by our 24/7 data productivity, it can seem impossible to escape. But in this inspiring field guide to dropping out of the attention economy, artist and critic Jenny Odell shows us how we can still win back our lives. Odell sees our attention as the most precious—and overdrawn—resource we have. And we must actively and continuously choose how we use it. We might not spend it on things that capitalism has deemed important ... but once we can start paying a new kind of attention, she writes, we can undertake bolder forms of political action,

reimagine humankind's role in the environment, and arrive at more meaningful understandings of happiness and progress. Far from the simple anti-technology screed, or the back-to-nature meditation we read so often, *How to do Nothing* is an action plan for thinking outside of capitalist narratives of efficiency and techno-determinism. Provocative, timely, and utterly persuasive, this book will change how you see your place in our world.

*Encouraging Learning* 2013-05-29 James Nottingham 'I recommend this book to anyone wishing to help children learn. In it you will find some lovely ideas for improving the way we encourage, support and praise all young people.' Professor Carol Dweck, author of *Mindset*, Stanford University, USA 'James has developed a rare skill for blending arresting anecdotes, hard-edged research and practical advice into a truly compelling narrative.' Professor Barry Hymer, author of the *Gifted and Talented Pocket Book*, Cumbria University, UK Over the last 20 years James Nottingham

has studied how children learn. He has taught every age group in both primary and secondary schools, helped deaf teenagers deal with anger and isolation and even done philosophy with three-year-olds. In this inspiring, humorous, and practical book he shows what you can do to help children of all ages develop into confident, thoughtful and independent learners. Based around the acronym ASK, this book explores attitudes, skills and knowledge to learning - what is required and how to develop these skills more effectively. It shows how to encourage independent thinking and a spirit of inquiry in your children. Highlights include: the dangers of calling our children clever, bright and gifted; the best ways to teach wisdom; how to help children excel in exams; why curiosity did not kill the cat. With a foreword written by John Hattie, Encouraging Learning draws on research from some of the most respected experts on thinking and learning to identify the best ways to help children learn more effectively, efficiently and co-operatively. For everyone living or working with children - particularly teachers, parents, carers and youth workers - this book shows you some of the best ways to enhance children's learning, including how to question, praise, and encourage more effectively.
