2016-01-18 Prof. Hilton Hotema In this book, first published in 1962, Professor Hilton Hotema provides his insights into how we could all live longer by learning the body's simple requirements of

breathing fresh air, avoiding animal flesh, banning any cooked food, and by gradually lessening the amount of food consumed. Hotema firmly believes that breathing fresh air and consuming organic fruits and natural organic liquids alone could extend our lives and also lays bare his secret that what kills at an early age is not the illusion of time, but rather overeating, breathing in toxic, unclean air, and elements such as electronic radiation, dirty electricity and medications. A must-read for any health-conscious individual.

2014-04-08 Solomon Northup Kidnapped and sold into slavery in the American South,

freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

2020-01-01 J. Allen Hynek The ultimate guide to Project Blue Book by one of the lead astronomers for the US Air Force program to investigate UFO sightings—and featured in History Channel's Project Blue Book. Originally released in 1977, this new edition by the world's foremost authority on UFOs distills 12,000 sightings and 140,000 pages of Project Blue Book evidence into a coherent explanation. A US Air Force-sponsored UFO-basher for years, Hynek had completely changed his tune by the late 1960s. Whether you believe in little green men or an official government cover-up policy, The Hynek UFO Report is required reading. Have UFOs really been reported by every nation across the globe? Can all the eyewitness reports simply be fantasy? Are we victims of mass hallucination or

just plain lies? Have close encounters actually occurred? Is the government concealing deep secrets at a hidden location? The Hynek UFO Report is rational, logical, and realistic. It is for anyone interested in UFOs, the possibility of extraterrestrial life, and the role of the US government in hiding the truth from the public.

2021-01-05 Kouhala "The Prakrit romance Lailaavaai, an early ninth-century poem attributed to Kouhala and set in modern-day coastal Andhra Pradesh, is the most celebrated work in the genre. Complexly narrated in the alternating voices of its heroines and heroes and featuring a cast of semi-divine and magical beings, it centers on three young women: Lailaavaai, princess of Sinhala (today's Sri Lanka); her cousin Mahanumai, princess of the mythical city Alaka; and Kuvalaavali, Mahanumai's adopted sister. Following a prophecy that Lailaavaai's husband will rule the earth, the princess happens upon a portrait of King Hala of Pratishtana and immediately falls in love. While journeying to meet him, she hears her cousins' tales of their lost loves, and then vows not to marry until they are reunited. To win Lailaavaai's hand, King Hala journeys to the underworld, faces monsters, and overcomes armies. Lailaavaai explores themes of karma and female desire, notably privileging women as storytellers. A new edition of the Prakrit text, presented in

the Devanagari script, accompanies a new English prose translation"--
